**Enterprise GP Holdings Reports First Quarter 2010 Results:
Record Distributable Cash Flow**

Houston, Texas (Monday, May 10, 2010) – Enterprise GP Holdings L.P. (NYSE: EPE) today announced its consolidated and parent-only financial results for the three months ended March 31, 2010. Enterprise GP Holdings L.P., the Parent Company, reported record distributable cash flow of \$86.5 million for the first quarter of 2010, a 17.2 percent increase from distributable cash flow of \$73.8 million reported for the first quarter of 2009.

On April 13, 2010, the Board of Directors of Enterprise GP Holdings' general partner approved an increase in the partnership's quarterly cash distribution rate with respect to the first quarter of 2010 to \$0.545 per unit, or \$2.18 per unit on an annualized basis. This represents a 12.4 percent increase from the \$0.485 per unit that was paid with respect to the first quarter of 2009. Distributable cash flow provided 1.1 times coverage of the quarterly cash distribution which was paid on May 7, 2010. Distributable cash flow is a non-generally accepted accounting principle ("non-GAAP") financial measure that is defined and reconciled later in this press release to its most directly comparable U.S. GAAP measure, which is net cash flow provided by operating activities.

The Parent Company received \$97.7 million of cash distributions from its investments with respect to the first quarter of 2010. This represents a 10.8 percent increase from the \$88.2 million of cash distributions it received with respect to the first quarter of 2009. The increase in cash distributions is primarily due to higher cash distribution rates from Enterprise Products Partners and Energy Transfer Equity with respect to the first quarter of 2010 as compared to the same period of 2009, as well as additional common units issued by Enterprise in 2009 and the first quarter of 2010. Cash distributions received from Enterprise Products Partners and its general partner, "EPGP", with respect to the first quarter of 2010 reflect the common units issued to and other consideration received by the Parent Company in connection with the mergers of TEPPCO and TEPPCO GP with Enterprise Products Partners on October 26, 2009.

Cash Distributions from Investees

(Amounts in millions)

	1 st Qtr 2010 ⁽¹⁾	1 st Qtr 2009 ⁽¹⁾
Enterprise Products Partners & EPGP ⁽²⁾	\$ 76.5	\$ 67.5
Energy Transfer Equity & LE GP	21.2	20.7
Total	\$ 97.7	\$ 88.2

(1) See Exhibit A for detailed information regarding distributions the Parent Company received from its investments.

(2) The first quarter of 2009 includes distributions received from TEPPCO and TEPPCO GP prior to the mergers of TEPPCO and TEPPCO GP with Enterprise Products Partners.

"We are pleased to report another quarter of solid results and record distributable cash flow," said Dr. Ralph S. Cunningham, president and chief executive officer of Enterprise GP Holdings. "We benefited from a particularly strong quarterly performance from Enterprise as it generated record distributable cash flow supported by all time high volumes for natural gas transportation, equity NGL production and propylene fractionation. We are excited about the prospect of future increases in distributable cash flow from Enterprise as it continues to grow its diversified base of assets from major projects put into service in 2009 and expected to be completed this year. These additional cash flows should allow us to continue our

track record of increasing the cash distributions paid to our partners as we have done each quarter since our initial public offering in August 2005,” continued Cunningham.

Consolidated net income attributable to Enterprise GP Holdings was \$69.9 million, or \$0.50 per unit on a fully diluted basis, for the first quarter of 2010 compared to \$62.9 million, or \$0.47 per unit on a fully diluted basis, for the first quarter of 2009

Parent Company interest expense for the first quarter of 2010 decreased to \$9.3 million from \$13.2 million recorded in the first quarter of 2009, primarily due to lower interest rates.

Parent Company Financial Information

In order for the unitholders of Enterprise GP Holdings and others to more fully understand the Parent Company’s business and financial statements on a standalone basis, our press release includes information devoted exclusively to the Parent Company apart from that of our consolidated Partnership. A key difference between the non-consolidated Parent Company financial information and those of our consolidated Partnership is that the Parent Company views each of its investments (i.e., Enterprise Products Partners and Energy Transfer Equity) as unconsolidated affiliates and records its share of the net income of each as equity earnings. In accordance with generally accepted accounting principles (“GAAP”), we eliminate the equity earnings related to Enterprise Products Partners in the preparation of our consolidated financial statements.

Use of Non-GAAP Financial Measures

The press release and accompanying schedules include the non-GAAP financial measure of distributable cash flow. Exhibit C provides a reconciliation of this non-GAAP financial measure to its most directly comparable financial measure calculated in accordance with GAAP. Distributable cash flow should not be considered an alternative to GAAP financial measures such as net income, net cash flow provided by operating activities or any other GAAP measure of liquidity or financial performance. We define distributable cash flow as follows:

- § Cash distributions received with respect to a given period from the Parent Company’s investments in limited and general partner interests; less the sum of,
- § Parent Company general and administrative costs on a standalone basis;
- § Parent Company interest expense on a standalone basis, before non-cash amortization; and
- § General and administrative costs, on a standalone basis, of the general partner of Enterprise Products Partners.

Distributable cash flow is a significant liquidity metric used by senior management to compare net cash flow generated by the Parent Company’s investments to the cash distributions the Parent Company is expected to pay its partners. Using this metric, senior management can compute the coverage ratio of estimated cash flow to planned cash distributions.

Distributable cash flow is an important non-GAAP financial measure for the Parent Company’s unitholders since it indicates to investors whether or not the Parent Company’s investments are generating cash flow at a level that can sustain or support an increase in quarterly cash distribution levels. Financial metrics such as distributable cash flow are quantitative standards used by the investment community because the value of a partnership unit is in part measured by its yield (which, in turn, is based on the amount of cash distributions a partnership pays to a unitholder).

Company Information and Forward-Looking Statements

Enterprise GP Holdings L.P. is one of the largest publicly traded GP partnerships and it owns the general partner and certain limited partner interests in Enterprise Products Partners L.P., as well as certain noncontrolling general partner and limited partner interests in Energy Transfer Equity, L.P. For more information on Enterprise GP Holdings L.P., visit its website at www.enterprisegp.com.

This press release contains various forward-looking statements and information that are based on Enterprise GP Holdings' beliefs and those of its general partner, as well as assumptions made by and information currently available to Enterprise GP Holdings. When used in this press release, words such as "anticipate," "project," "expect," "plan," "seek," "goal," "estimate," "forecast," "intend," "could," "should," "will," "believe," "may," "potential" and similar expressions and statements regarding the plans and objectives of Enterprise GP Holdings, Enterprise Products Partners, Energy Transfer Equity or Energy Transfer Partners (the "Related Companies") for future operations, are intended to identify forward-looking statements. Although Enterprise GP Holdings and its general partner believe that such expectations reflected in such forward-looking statements are reasonable, neither Enterprise GP Holdings nor its general partner can give assurances that such expectations will prove to be correct. Such statements are subject to a variety of risks, uncertainties and assumptions. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, Enterprise GP Holdings' actual results may vary materially from those it anticipated, estimated, projected or expected. Among the key risk factors that may have a direct bearing on the Related Companies' and, in turn, Enterprise GP Holdings' results of operations and financial condition are:

- § fluctuations in oil, natural gas and natural gas liquid prices and production due to weather and other natural and economic forces;
- § the effects of the Related Companies' debt level on its future financial and operating flexibility;
- § a reduction in demand for the Related Companies' products by the petrochemical, refining, heating or other industries;
- § a decline in the volumes delivered by the Related Companies' facilities;
- § the failure of any of the Related Companies' credit risk management efforts to adequately protect it against customer non-payment;
- § terrorist attacks aimed at the Related Companies' facilities; and
- § the failure to successfully integrate the Related Companies' operations with companies, if any, that they may acquire in the future.

Enterprise GP Holdings has no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.
