

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2017

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from ____ to ____.

Commission file number: 1-14323

ENTERPRISE PRODUCTS PARTNERS L.P.

(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

76-0568219
(I.R.S. Employer Identification No.)

1100 Louisiana Street, 10th Floor
Houston, Texas 77002
(Address of Principal Executive Offices, including Zip Code)

(713) 381-6500
(Registrant's Telephone Number, including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There were 2,141,588,793 common units of Enterprise Products Partners L.P. outstanding at the close of business on April 28, 2017. Our common units trade on the New York Stock Exchange under the ticker symbol "EPD."

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

*With the exception of per unit amounts, or as noted within the context of each disclosure,
the dollar amounts presented in the tabular data within these disclosures are
stated in millions of dollars.*

**KEY REFERENCES USED IN THESE
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Unless the context requires otherwise, references to "we," "us," "our," "Enterprise" or "Enterprise Products Partners" are intended to mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries. References to "EPO" mean Enterprise Products Operating LLC, which is a wholly owned subsidiary of Enterprise, and its consolidated subsidiaries, through which Enterprise Products Partners L.P. conducts its business. Enterprise is managed by its general partner, Enterprise Products Holdings LLC ("Enterprise GP"), which is a wholly owned subsidiary of Dan Duncan LLC, a privately held Texas limited liability company.

The membership interests of Dan Duncan LLC are owned by a voting trust, the current trustees ("DD LLC Trustees") of which are: (i) Randa Duncan Williams, who is also a director and Chairman of the Board of Directors (the "Board") of Enterprise GP; (ii) Richard H. Bachmann, who is also a director and Vice Chairman of the Board of Enterprise GP; and (iii) Dr. Ralph S. Cunningham. Ms. Duncan Williams and Mr. Bachmann also currently serve as managers of Dan Duncan LLC along with W. Randall Fowler, who is also a director and President of Enterprise GP.

References to "EPCO" mean Enterprise Products Company, a privately held Texas corporation, and its privately held affiliates. A majority of the outstanding voting capital stock of EPCO is owned by a voting trust, the current trustees ("EPCO Trustees") of which are: (i) Ms. Duncan Williams, who serves as Chairman of EPCO; (ii) Dr. Cunningham, who serves as Vice Chairman of EPCO; and (iii) Mr. Bachmann, who serves as the President and Chief Executive Officer of EPCO. Ms. Duncan Williams and Mr. Bachmann also currently serve as directors of EPCO along with Mr. Fowler, who is also the Executive Vice President and Chief Administrative Officer of EPCO. EPCO, together with its privately held affiliates, owned approximately 32% of our limited partner interests at March 31, 2017.

References to "Oiltanking acquisition" mean the two-step acquisition of Oiltanking Partners, L.P. and its general partner that was completed in February 2015.

References to "TEPPCO" mean TEPPCO Partners, L.P. prior to its merger with one of our wholly owned subsidiaries in October 2009.

Note 1. Partnership Operations, Organization and Basis of Presentation

We are a publicly traded Delaware limited partnership, the common units of which are listed on the New York Stock Exchange ("NYSE") under the ticker symbol "EPD." We were formed in April 1998 to own and operate certain natural gas liquids ("NGLs") related businesses of EPCO and are a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, petrochemicals and refined products.

Our integrated midstream energy asset network links producers of natural gas, NGLs and crude oil from some of the largest supply basins in the United States ("U.S."), Canada and the Gulf of Mexico with domestic consumers and international markets. Our midstream energy operations currently include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage, and export and import terminals (including those used to export liquefied petroleum gases, or "LPG," and ethane); crude oil gathering, transportation, storage, and export and import terminals; petrochemical and refined products transportation, storage, export and import terminals, and related services; and a marine transportation business that operates primarily on the U.S. inland and Intracoastal Waterway systems. Our assets currently include approximately 50,000 miles of pipelines; 260 million barrels ("MMBbls") of storage capacity for NGLs, crude oil, petrochemicals and refined products; and 14 billion cubic feet ("Bcf") of natural gas storage capacity.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

We conduct substantially all of our business through EPO and are owned 100% by our limited partners from an economic perspective. Enterprise GP manages our partnership and owns a non-economic general partner interest in us. We, Enterprise GP, EPCO and Dan Duncan LLC are affiliates under the collective common control of the DD LLC Trustees and the EPCO Trustees. Like many publicly traded partnerships, we have no employees. All of our management, administrative and operating functions are performed by employees of EPCO pursuant to an administrative services agreement (the "ASA") or by other service providers. See Note 13 for information regarding the ASA and other related party matters.

Our operations are reported under four business segments: (i) NGL Pipelines & Services, (ii) Crude Oil Pipelines & Services, (iii) Natural Gas Pipelines & Services and (iv) Petrochemical & Refined Products Services. See Note 9 for information regarding our business segments.

Note 2. General Accounting and Disclosure Matters

Our results of operations for the three months ended March 31, 2017 are not necessarily indicative of results expected for the full year of 2017. In our opinion, the accompanying Unaudited Condensed Consolidated Financial Statements include all adjustments consisting of normal recurring accruals necessary for fair presentation. Although we believe the disclosures in these financial statements are adequate and make the information presented not misleading, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC").

These Unaudited Condensed Consolidated Financial Statements and Notes thereto should be read in conjunction with the Audited Consolidated Financial Statements and Notes thereto included in our annual report on Form 10-K for the year ended December 31, 2016 (the "2016 Form 10-K") filed with the SEC on February 24, 2017.

Contingencies

Certain conditions may exist as of the date our consolidated financial statements are issued, which may result in a loss to us but which will only be resolved when one or more future events occur or fail to occur. Management has regular quarterly litigation reviews, including updates from legal counsel, to assess the need for accounting recognition or disclosure of these contingencies, and such assessment inherently involves an exercise in judgment. In assessing loss contingencies related to legal proceedings that are pending against us or unasserted claims that may result in such proceedings, our management and legal counsel evaluate the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

We accrue an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated. If a range of amounts can be reasonably estimated and no amount within the range is a better estimate than any other amount, then the minimum of the range is accrued. We do not record a contingent liability when the likelihood of loss is probable but the amount cannot be reasonably estimated or when the likelihood of loss is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and the impact would be material to our consolidated financial statements, we disclose the nature of the contingency and, where feasible, an estimate of the possible loss or range of loss.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. See Note 14 for additional information regarding our contingencies.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Derivative Instruments

We use derivative instruments such as futures, swaps, forward contracts and other arrangements to manage price risks associated with inventories, firm commitments, interest rates and certain anticipated future commodity transactions. To qualify for hedge accounting, the hedged item must expose us to risk and the related derivative instrument must reduce the exposure to that risk and meet specific hedge documentation requirements related to designation dates, expectations for hedge effectiveness and the probability that hedged future transactions will occur as forecasted. We formally designate derivative instruments as hedges and document and assess their effectiveness at inception of the hedge and on a monthly basis thereafter. Forecasted transactions are evaluated for the probability of occurrence and are periodically back-tested once the forecasted period has passed to determine whether similarly forecasted transactions are probable of occurring in the future.

For certain physical forward commodity derivative contracts, we apply the normal purchase/normal sale exception, whereby changes in the mark-to-market values of such contracts are not recognized in income. As a result, the revenues and expenses associated with such physical transactions are recognized during the period when volumes are physically delivered or received. Physical forward commodity contracts subject to this exception are evaluated for the probability of future delivery and are periodically back-tested once the forecasted period has passed to determine whether similar forward contracts are probable of physical delivery in the future. See Note 12 for additional information regarding our derivative instruments.

Estimates

Preparing our consolidated financial statements in conformity with U.S. GAAP requires us to make estimates that affect amounts presented in the financial statements. Our most significant estimates relate to (i) the useful lives and depreciation/amortization methods used for fixed and identifiable intangible assets; (ii) measurement of fair value and projections used in impairment testing of fixed and intangible assets (including goodwill); (iii) contingencies; and (iv) revenue and expense accruals.

Actual results could differ materially from our estimates. On an ongoing basis, we review our estimates based on currently available information. Any changes in the facts and circumstances underlying our estimates may require us to update such estimates, which could have a material impact on our consolidated financial statements.

Fair Value Measurements

Our fair value estimates are based on either (i) actual market data or (ii) assumptions that other market participants would use in pricing an asset or liability, including estimates of risk, in the principal market of the asset or liability at a specified measurement date. Recognized valuation techniques employ inputs such as contractual prices, quoted market prices or rates, operating costs, discount factors and business growth rates. These inputs may be either readily observable, corroborated by market data or generally unobservable. In developing our estimates of fair value, we endeavor to utilize the best information available and apply market-based data to the highest extent possible. Accordingly, we utilize valuation techniques (such as the market approach) that maximize the use of observable inputs and minimize the use of unobservable inputs.

A three-tier hierarchy has been established that classifies fair value amounts recognized in the financial statements based on the observability of inputs used to estimate such fair values. The hierarchy considers fair value amounts based on observable inputs (Levels 1 and 2) to be more reliable and predictable than those based primarily on unobservable inputs (Level 3). At each balance sheet reporting date, we categorize our financial assets and liabilities using this hierarchy.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Recent Accounting Developments

Revenue Recognition. In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification 606, *Revenues from Contracts with Customers* ("ASC 606"). The new accounting standard, along with its related amendments, replaces the current rules-based U.S. GAAP governing revenue recognition with a principles-based approach. We plan to adopt the new standard on January 1, 2018 using the modified retrospective approach, which requires us to apply the new revenue standard to (i) all new revenue contracts entered into after January 1, 2018 and (ii) all existing revenue contracts as of January 1, 2018 through a cumulative adjustment to equity. In accordance with this approach, our consolidated revenues for periods prior to January 1, 2018 will not be revised.

The core principle in the new guidance is that a company should recognize revenue in a manner that fairly depicts the transfer of goods or services to customers in amounts that reflect the consideration the company expects to receive for those goods or services. In order to apply this core principle, companies will apply the following five steps in determining the amount of revenues to recognize: (i) identify the contract; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the performance obligation is satisfied. Each of these steps involves management's judgment and an analysis of the contract's material terms and conditions.

Our implementation activities related to ASC 606 are ongoing. For the vast majority of our businesses, we do not anticipate that there will be material differences in the amount or timing of revenues recognized following the new standard's adoption date. However, we continue to evaluate the guidance under ASC 606 applicable to natural gas processing agreements where non-cash consideration is received for services rendered (e.g., equity NGL volumes received under percent of liquids, keepwhole and similar arrangements).

Although total consolidated revenues may not be materially impacted by the new guidance, we do anticipate significant changes to our disclosures based on the additional requirements prescribed by ASC 606. These new disclosures include information regarding the significant judgments used in evaluating when and how revenue is (or will be) recognized and data related to contract assets and liabilities. Additionally, we are currently evaluating our business processes, systems and controls to ensure the accuracy and timeliness of the recognition and disclosure requirements under the new revenue guidance.

Leases. In February 2016, the FASB issued ASC 842, *Leases* ("ASC 842"), which requires substantially all leases (with the exception of leases with a term of one year or less) to be recorded on the balance sheet using a method referred to as the right-of-use ("ROU") asset approach. We plan to adopt the new standard on January 1, 2019 using the modified retrospective method described within ASC 842.

The new standard introduces two lease accounting models, which result in a lease being classified as either a "finance" or "operating" lease on the basis of whether the lessee effectively obtains control of the underlying asset during the lease term. A lease would be classified as a finance lease if it meets one of five classification criteria, four of which are generally consistent with current lease accounting guidance. By default, a lease that does not meet the criteria to be classified as a finance lease will be deemed an operating lease. Regardless of classification, the initial measurement of both lease types will result in the balance sheet recognition of a ROU asset representing a company's right to use the underlying asset for a specified period of time and a corresponding lease liability. The lease liability will be recognized at the present value of the future lease payments, and the ROU asset will equal the lease liability adjusted for any prepaid rent, lease incentives provided by the lessor, and any indirect costs.

The subsequent measurement of each type of lease varies. Leases classified as a finance lease will be accounted for using the effective interest method. Under this approach, a lessee will amortize the ROU asset (generally on a straight-line basis in a manner similar to depreciation) and the discount on the lease liability (as a component of interest expense). Leases classified as an operating lease will result in the recognition of a single lease expense amount that is recorded on a straight-line basis (or another systematic basis, if more appropriate).

We have started the process of reviewing our lease agreements in light of the new guidance. Although we are in the early stages of our ASC 842 implementation project, we anticipate that this new lease guidance will cause significant changes to the way leases are recorded, presented and disclosed in our consolidated financial statements.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Restricted Cash

Restricted cash represents amounts held in segregated bank accounts by our clearing brokers as margin in support of our commodity derivative instruments portfolio and related physical purchases and sales of natural gas, NGLs, crude oil and refined products. Additional cash may be restricted to maintain our commodity derivative instruments portfolio as prices fluctuate or margin requirements change.

At March 31, 2017 and December 31, 2016, our restricted cash amounts were \$44.7 million and \$354.5 million, respectively. The balance of restricted cash decreased since December 31, 2016 primarily due to the settlement of derivative instruments related to contango positions during the first quarter of 2017. See Note 12 for information regarding our derivative instruments and hedging activities.

Note 3. Inventories

Our inventory amounts by product type were as follows at the dates indicated:

	March 31, 2017	December 31, 2016
NGLs	\$ 1,107.5	\$ 1,156.1
Petrochemicals and refined products	474.2	220.7
Crude oil	319.5	360.0
Natural gas	20.8	33.7
Total	<u>\$ 1,922.0</u>	<u>\$ 1,770.5</u>

Inventories of petrochemicals and refined products increased since December 31, 2016 primarily due to our marketing group acquiring additional volumes during the first quarter of 2017 to take advantage of contango opportunities using our storage assets. These contango positions are expected to settle during the second quarter of 2017. Inventories of our other products decreased since December 31, 2016 primarily due to the settlement of contango positions in these products during the first quarter of 2017.

Due to fluctuating commodity prices, we recognize lower of cost or market adjustments when the carrying value of our available-for-sale inventories exceeds their net realizable value. The following table presents our total cost of sales amounts and lower of cost or net realizable value adjustments for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Cost of sales (1)	\$ 5,335.7	\$ 3,208.3
Lower of cost or net realizable value adjustments within cost of sales	3.4	5.3

(1) Cost of sales is a component of "Operating costs and expenses" as presented on our Unaudited Condensed Statements of Consolidated Operations. Fluctuations in these amounts are primarily due to changes in energy commodity prices and sales volumes associated with our marketing activities.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 4. Property, Plant and Equipment

The historical costs of our property, plant and equipment and related accumulated depreciation balances were as follows at the dates indicated:

	Estimated Useful Life in Years	March 31, 2017	December 31, 2016
Plants, pipelines and facilities (1)	3-45 (5)	\$ 35,382.6	\$ 35,124.6
Underground and other storage facilities (2)	5-40 (6)	3,352.8	3,326.9
Transportation equipment (3)	3-10	169.2	165.8
Marine vessels (4)	15-30	801.2	800.7
Land		265.1	264.6
Construction in progress		3,565.8	3,320.7
Total		43,536.7	43,003.3
Less accumulated depreciation		9,980.6	9,710.8
Property, plant and equipment, net		<u>\$ 33,556.1</u>	<u>\$ 33,292.5</u>

(1) Plants, pipelines and facilities include processing plants; NGL, natural gas, crude oil and petrochemical and refined products pipelines; terminal loading and unloading facilities; buildings; office furniture and equipment; laboratory and shop equipment and related assets.

(2) Underground and other storage facilities include underground product storage caverns; above ground storage tanks; water wells and related assets.

(3) Transportation equipment includes tractor-trailer tank trucks and other vehicles and similar assets used in our operations.

(4) Marine vessels include tow boats, barges and related equipment used in our marine transportation business.

(5) In general, the estimated useful lives of major assets within this category are: processing plants, 20-35 years; pipelines and related equipment, 5-45 years; terminal facilities, 10-35 years; buildings, 20-40 years; office furniture and equipment, 3-20 years; and laboratory and shop equipment, 5-35 years.

(6) In general, the estimated useful lives of assets within this category are: underground storage facilities, 5-35 years; storage tanks, 10-40 years; and water wells, 5-35 years.

The following table summarizes our depreciation expense and capitalized interest amounts for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Depreciation expense (1)	\$ 317.5	\$ 295.9
Capitalized interest (2)	39.6	42.5

(1) Depreciation expense is a component of "Costs and expenses" as presented on our Unaudited Condensed Statements of Consolidated Operations.

(2) We capitalize interest costs incurred on funds used to construct property, plant and equipment while the asset is in its construction phase. The capitalized interest is recorded as part of the asset to which it relates and is amortized over the asset's estimated useful life as a component of depreciation expense. When capitalized interest is recorded, it reduces interest expense from what it would be otherwise.

Asset Retirement Obligations

We record asset retirement obligations ("AROs") in connection with legal requirements to perform specified retirement activities under contractual arrangements and/or governmental regulations. Our contractual AROs primarily result from right-of-way agreements associated with our pipeline operations and real estate leases associated with our plant sites. In addition, we record AROs in connection with governmental regulations associated with the abandonment or retirement of above-ground brine storage pits and certain marine vessels. We also record AROs in connection with regulatory requirements associated with the renovation or demolition of certain assets containing hazardous substances such as asbestos. We typically fund our AROs using cash flow from operations.

Property, plant and equipment at March 31, 2017 and December 31, 2016 includes \$44.2 million and \$44.9 million, respectively, of asset retirement costs capitalized as an increase in the associated long-lived asset.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table presents information regarding our AROs since January 1, 2017:

ARO liability balance, January 1, 2017	\$ 85.4
Liabilities settled	(1.0)
Accretion expense	1.3
ARO liability balance, March 31, 2017	<u>\$ 85.7</u>

Azure Acquisition

In March 2017, we announced the execution of a definitive agreement to acquire the midstream business and assets of Azure Midstream Partners, L.P. and its operating subsidiaries ("Azure"). The purchase agreement was the result of Azure's bankruptcy auction proceedings, which we won with a bid price of \$189 million. The sale was approved by the U.S. Bankruptcy Court for the Southern District of Texas on March 15, 2017.

Azure's assets, which are located in East Texas and North Louisiana, include over 960 miles of natural gas gathering pipelines, three natural gas processing facilities with an aggregate processing capacity of approximately 210 million cubic feet per day, and two NGL pipelines with throughput capacities of 10 thousand barrels per day each. The Azure assets serve production from the Haynesville Shale and Bossier, Cotton Valley and Travis Peak formations.

The transaction closed in April 2017 after receiving final regulatory approvals and the satisfaction of other closing conditions. Under terms of the definitive agreement, we paid a deposit of \$16.0 million in March 2017, which was applied to the purchase price of \$189 million at closing. The deposit is presented on our Unaudited Condensed Statement of Consolidated Cash Flows under the Investing Activities section as "Cash used for pending business combination." The remainder of the accounting for the Azure acquisition, including development of the purchase price allocation, will take place during the second quarter of 2017 when the necessary information is obtained.

Note 5. Investments in Unconsolidated Affiliates

The following table presents our investments in unconsolidated affiliates by business segment at the dates indicated. We account for these investments using the equity method.

	Ownership Interest at March 31, 2017	March 31, 2017	December 31, 2016
NGL Pipelines & Services:			
Venice Energy Service Company, L.L.C.	13.1%	\$ 24.7	\$ 24.8
K/D/S Promix, L.L.C.	50%	34.1	33.7
Baton Rouge Fractionators LLC	32.2%	17.5	17.3
Skelly-Belvieu Pipeline Company, L.L.C.	50%	38.7	38.9
Texas Express Pipeline LLC	35%	330.3	331.9
Texas Express Gathering LLC	45%	36.0	35.8
Front Range Pipeline LLC	33.3%	167.4	165.4
Delaware Basin Gas Processing LLC	50%	109.4	102.6
Crude Oil Pipelines & Services:			
Seaway Crude Pipeline Company LLC	50%	1,386.5	1,393.8
Eagle Ford Pipeline LLC	50%	383.7	377.9
Eagle Ford Terminals Corpus Christi LLC	50%	57.8	52.9
Natural Gas Pipelines & Services:			
White River Hub, LLC	50%	21.5	21.7
Petrochemical & Refined Products Services:			
Centennial Pipeline LLC	50%	58.8	62.3
Other	Various	5.0	18.3
Total		<u>\$ 2,671.4</u>	<u>\$ 2,677.3</u>

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table presents our equity in income (loss) of unconsolidated affiliates by business segment for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
NGL Pipelines & Services	\$ 15.5	\$ 15.1
Crude Oil Pipelines & Services	81.2	90.1
Natural Gas Pipelines & Services	1.0	1.0
Petrochemical & Refined Products Services	(2.9)	(5.1)
Total	<u>\$ 94.8</u>	<u>\$ 101.1</u>

The following table presents our unamortized excess cost amounts by business segment at the dates indicated:

	March 31, 2017	December 31, 2016
	NGL Pipelines & Services	\$ 23.8
Crude Oil Pipelines & Services	18.8	19.0
Petrochemical & Refined Products Services	1.9	2.1
Total	<u>\$ 44.5</u>	<u>\$ 45.2</u>

In total, amortization of excess cost amounts was \$0.5 million for each of the three months ended March 31, 2017 and 2016.

Summarized Combined Financial Information of Unconsolidated Affiliates

Combined results of operations data for the periods indicated for our unconsolidated affiliates are summarized in the following table (all data presented on a 100% basis):

	For the Three Months Ended March 31,	
	2017	2016
Income Statement Data:		
Revenues	\$ 343.2	\$ 345.5
Operating income	203.7	213.7
Net income	202.9	215.2

Parent-Subsidiary Guarantor Relationships

Enterprise Products Partners L.P. acts as guarantor of the consolidated debt obligations of EPO, with the exception of the remaining debt obligations of TEPPCO. If EPO were to default on any of its guaranteed debt, Enterprise Products Partners L.P. would be responsible for full and unconditional repayment of that obligation.

Letters of Credit

At March 31, 2017, EPO had \$66.4 million of letters of credit outstanding primarily related to our commodity hedging activities.

Lender Financial Covenants

We were in compliance with the financial covenants of our consolidated debt agreements at March 31, 2017.

Note 8. Equity and Distributions

Partners' Equity

Partners' equity reflects the various classes of limited partner interests (i.e., common units, including restricted common units) outstanding. The following table summarizes changes in the number of our outstanding units from January 1, 2017 to March 31, 2017:

	Common Units (Unrestricted)	Restricted Common Units	Total Common Units
Number of units outstanding at January 1, 2017	2,116,906,120	682,294	2,117,588,414
Common units issued in connection with ATM program	12,865,371	--	12,865,371
Common units issued in connection with DRIP and EUPP	3,440,559	--	3,440,559
Common units issued in connection with the vesting of phantom unit awards	2,234,067	--	2,234,067
Common units issued in connection with the vesting of restricted common unit awards	665,920	(665,920)	--
Forfeiture of restricted common unit awards	--	(1,250)	(1,250)
Cancellation of treasury units acquired in connection with the vesting of equity-based awards	(946,291)	--	(946,291)
Common units issued in connection with employee compensation	1,176,103	--	1,176,103
Other	14,685	--	14,685
Number of units outstanding at March 31, 2017	<u>2,136,356,534</u>	<u>15,124</u>	<u>2,136,371,658</u>

The net cash proceeds we received from the issuance of common units during the three months ended March 31, 2017 were used to temporarily reduce amounts outstanding under EPO's commercial paper program and revolving credit facilities and for general company purposes.

We expect to issue additional equity and debt securities to assist us in meeting our future liquidity requirements, including those related to capital spending.

Universal shelf registration statement. We have a universal shelf registration statement (the "2016 Shelf") on file with the SEC. The 2016 Shelf allows Enterprise Products Partners L.P. and EPO (each on a standalone basis) to issue an unlimited amount of equity and debt securities, respectively.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

At-the-Market ("ATM") program. We have a registration statement on file with the SEC covering the issuance of up to \$1.89 billion of our common units in amounts, at prices and on terms to be determined by market conditions and other factors at the time of such offerings in connection with our ATM program. Pursuant to this program, we may sell common units under an equity distribution agreement between Enterprise Products Partners L.P. and certain broker-dealers from time-to-time by means of ordinary brokers' transactions through the NYSE at market prices, in block transactions or as otherwise agreed to with the broker-dealer parties to the agreement.

During the three months ended March 31, 2017, we sold 12,865,371 common units under the ATM program for aggregate gross proceeds of \$359.7 million. After taking into account applicable costs, our transactions under the ATM program resulted in aggregate net cash proceeds of \$356.0 million during the three months ended March 31, 2017. During the three months ended March 31, 2016, we issued 35,396,147 common units under this program for aggregate gross cash proceeds of \$856.5 million, resulting in total net cash proceeds of \$849.0 million. This includes 3,830,256 common units sold in January 2016 to a privately held affiliate of EPCO, which generated gross proceeds of \$100 million. After taking into account the aggregate sales price of common units sold under the ATM program through March 31, 2017, we have the capacity to issue additional common units under the ATM program up to an aggregate sales price of \$1.08 billion.

Distribution reinvestment plan. We also have registration statements on file with the SEC collectively authorizing the issuance of up to 240,000,000 of our common units in connection with a distribution reinvestment plan ("DRIP"). The DRIP provides unitholders of record and beneficial owners of our common units a voluntary means by which they can increase the number of our common units they own by reinvesting the quarterly cash distributions they receive from us into the purchase of additional new common units.

We issued a total of 3,325,798 common units under our DRIP during the three months ended March 31, 2017, which generated net cash proceeds of \$89.6 million. During the three months ended March 31, 2016, we issued 7,162,744 common units under our DRIP, which generated net cash proceeds of \$159.8 million. Privately held affiliates of EPCO reinvested \$100 million through the DRIP during the three months ended March 31, 2016 (this amount being a component of the net cash proceeds presented).

After taking into account the number of common units issued under the DRIP through March 31, 2017, we have the capacity to issue an additional 95,932,697 common units under this plan.

Employee unit purchase plan. In addition to the DRIP, we have registration statements on file with the SEC authorizing the issuance of up to 8,000,000 of our common units in connection with our employee unit purchase plan ("EUPP"). We issued 114,761 common units under our EUPP during the three months ended March 31, 2017, which generated net cash proceeds of \$3.2 million. During the three months ended March 31, 2016, we issued 119,262 common units under our EUPP, which generated net cash proceeds of \$2.7 million. After taking into account the number of common units issued under the EUPP through March 31, 2017, we may issue an additional 6,150,714 common units under this plan.

Common units issued in connection with employee compensation. In February 2017, the dollar value of the discretionary employee bonus payments with respect to the year ended December 31, 2016 (less any retirement plan deductions and withholding taxes) was remitted through the issuance of an equivalent value of newly issued Enterprise common units. The compensation expense associated with this issuance of common units was recognized during the year ended December 31, 2016.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Noncontrolling Interests

Noncontrolling interests represent third party equity ownership interests in our consolidated subsidiaries (e.g., joint venture partners in entities in which we have a controlling ownership interest).

Accumulated Other Comprehensive Income (Loss)

The following tables present the components of accumulated other comprehensive income (loss) as reported on our Unaudited Condensed Consolidated Balance Sheets at the dates indicated:

	Gains (Losses) on Cash Flow Hedges			Total
	Commodity Derivative Instruments	Interest Rate Derivative Instruments	Other	
Balance, January 1, 2017	\$ (83.8)	\$ (199.8)	\$ 3.6	\$ (280.0)
Other comprehensive income (loss) before reclassifications	144.8	2.4	(0.1)	147.1
Amounts reclassified from accumulated other comprehensive loss (income)	7.1	9.6	--	16.7
Total other comprehensive income (loss)	151.9	12.0	(0.1)	163.8
Balance, March 31, 2017	<u>\$ 68.1</u>	<u>\$ (187.8)</u>	<u>\$ 3.5</u>	<u>\$ (116.2)</u>

	Gains (Losses) on Cash Flow Hedges			Total
	Commodity Derivative Instruments	Interest Rate Derivative Instruments	Other	
Balance, January 1, 2016	\$ 56.6	\$ (279.5)	\$ 3.7	\$ (219.2)
Other comprehensive loss before reclassifications	(1.2)	--	(0.1)	(1.3)
Amounts reclassified from accumulated other comprehensive loss (income)	(57.2)	9.2	--	(48.0)
Total other comprehensive income (loss)	(58.4)	9.2	(0.1)	(49.3)
Balance, March 31, 2016	<u>\$ (1.8)</u>	<u>\$ (270.3)</u>	<u>\$ 3.6</u>	<u>\$ (268.5)</u>

The following table presents reclassifications out of accumulated other comprehensive income (loss) into net income during the periods indicated:

	Location	For the Three Months Ended March 31,	
		2017	2016
Losses (gains) on cash flow hedges:			
Interest rate derivatives	Interest expense	\$ 9.6	\$ 9.2
Commodity derivatives	Revenue	7.5	(58.8)
Commodity derivatives	Operating costs and expenses	(0.4)	1.6
Total		<u>\$ 16.7</u>	<u>\$ (48.0)</u>

For information regarding our interest rate and commodity derivative instruments, see Note 12.

Cash Distributions

The following table presents Enterprise's declared quarterly cash distribution rates per common unit with respect to the quarter indicated:

	Distribution Per Common Unit	Record Date	Payment Date
2016			
1st Quarter	\$ 0.3950	4/29/2016	5/6/2016
2017			
1st Quarter	\$ 0.4150	4/28/2017	5/8/2017

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 9. Business Segments

Our operations are reported under four business segments: (i) NGL Pipelines & Services, (ii) Crude Oil Pipelines & Services, (iii) Natural Gas Pipelines & Services and (iv) Petrochemical & Refined Products Services.

Our business segments are generally organized and managed according to the types of services rendered (or technologies employed) and products produced and/or sold. Financial information regarding these segments is evaluated regularly by our chief operating decision makers in deciding how to allocate resources and in assessing operating and financial performance.

Segment Gross Operating Margin

We evaluate segment performance based on our financial measure of gross operating margin. Gross operating margin is an important performance measure of the core profitability of our operations and forms the basis of our internal financial reporting. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results. Gross operating margin is exclusive of other income and expense transactions, income taxes, the cumulative effect of changes in accounting principles and extraordinary charges. Gross operating margin is presented on a 100% basis before any allocation of earnings to noncontrolling interests.

The following table presents our measurement of total segment gross operating margin for the periods presented. The GAAP financial measure most directly comparable to total segment gross operating margin is operating income.

	For the Three Months Ended March 31,	
	2017	2016
Income before income taxes	\$ 777.0	\$ 678.6
Add total other expense, net	254.6	237.0
Operating income	1,031.6	915.6
<i>Adjustments to reconcile operating income to total gross operating margin:</i>		
Add depreciation, amortization and accretion expense in operating costs and expenses	376.2	358.2
Add asset impairment and related charges in operating costs and expenses	11.2	1.7
Add net losses and subtract net gains attributable to asset sales in operating costs and expenses	(0.3)	4.9
Add general and administrative costs	50.4	43.9
<i>Adjustments for make-up rights on certain new pipeline projects:</i>		
Add non-refundable payments received from shippers attributable to make-up rights (1)	13.3	7.1
Subtract the subsequent recognition of revenues attributable to make-up rights (2)	(9.1)	(12.9)
Total segment gross operating margin	<u>\$ 1,473.3</u>	<u>\$ 1,318.5</u>

- (1) Since make-up rights entail a future performance obligation by the pipeline to the shipper, these receipts are recorded as deferred revenue for GAAP purposes; however, these receipts are included in gross operating margin in the period of receipt since they are nonrefundable to the shipper.
- (2) As deferred revenues attributable to make-up rights are subsequently recognized as revenue under GAAP, gross operating margin must be adjusted to remove such amounts to prevent duplication since the associated non-refundable payments were previously included in gross operating margin.

Gross operating margin by segment is calculated by subtracting segment operating costs and expenses from segment revenues, with both segment totals reflecting the adjustments noted in the preceding table, as applicable, and before the elimination of intercompany transactions. The following table presents gross operating margin by segment for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
<i>Gross operating margin by segment:</i>		
NGL Pipelines & Services	\$ 856.0	\$ 783.7
Crude Oil Pipelines & Services	264.6	202.3
Natural Gas Pipelines & Services	170.9	177.7
Petrochemical & Refined Products Services	181.8	154.8
Total segment gross operating margin	<u>\$ 1,473.3</u>	<u>\$ 1,318.5</u>

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Summarized Segment Financial Information

Information by business segment, together with reconciliations to amounts presented on our Unaudited Condensed Statements of Consolidated Operations, is presented in the following table:

	Reportable Business Segments				Adjustments and Eliminations	Consolidated Total
	NGL Pipelines & Services	Crude Oil Pipelines & Services	Natural Gas Pipelines & Services	Petrochemical & Refined Products Services		
Revenues from third parties:						
Three months ended March 31, 2017	\$ 3,343.0	\$ 1,802.6	\$ 757.8	\$ 1,406.2	\$ --	\$ 7,309.6
Three months ended March 31, 2016	2,402.0	1,277.5	547.3	762.9	--	4,989.7
Revenues from related parties:						
Three months ended March 31, 2017	2.8	4.6	3.4	--	--	10.8
Three months ended March 31, 2016	1.8	11.1	2.7	--	--	15.6
Intersegment and intrasegment revenues:						
Three months ended March 31, 2017	8,874.8	3,474.0	194.5	414.7	(12,958.0)	--
Three months ended March 31, 2016	3,174.8	1,499.4	124.7	242.7	(5,041.6)	--
Total revenues:						
Three months ended March 31, 2017	12,220.6	5,281.2	955.7	1,820.9	(12,958.0)	7,320.4
Three months ended March 31, 2016	5,578.6	2,788.0	674.7	1,005.6	(5,041.6)	5,005.3
Equity in income (loss) of unconsolidated affiliates:						
Three months ended March 31, 2017	15.5	81.2	1.0	(2.9)	--	94.8
Three months ended March 31, 2016	15.1	90.1	1.0	(5.1)	--	101.1

Segment revenues include intersegment and intrasegment transactions, which are generally based on transactions made at market-based rates. Our consolidated revenues reflect the elimination of intercompany transactions. Substantially all of our consolidated revenues are earned in the U.S. and derived from a wide customer base.

Information by business segment, together with reconciliations to our Unaudited Condensed Consolidated Balance Sheet totals, is presented in the following table:

	Reportable Business Segments				Adjustments and Eliminations	Consolidated Total
	NGL Pipelines & Services	Crude Oil Pipelines & Services	Natural Gas Pipelines & Services	Petrochemical & Refined Products Services

Segment assets:						
At March 31, 2017	17,755.8	10,271.8	9,719.7	4,482.7	3,565.8	45,795.8
At December 31, 2016	17,843.8	10,160.7	9,775.5	4,478.4	3,320.7	45,579.1

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Segment assets consist of property, plant and equipment, investments in unconsolidated affiliates, intangible assets and goodwill. The carrying values of such amounts are assigned to each segment based on each asset's or investment's principal operations and contribution to the gross operating margin of that particular segment. Since construction-in-progress amounts (a component of property, plant and equipment) generally do not contribute to segment gross operating margin, such amounts are excluded from segment asset totals until the underlying assets are placed in service. Intangible assets and goodwill are assigned to each segment based on the classification of the assets to which they relate. The remainder of our consolidated total assets, which consist primarily of working capital assets, are excluded from segment assets since these amounts are not attributable to one specific segment (e.g. cash).

Other Revenue and Expense Information

The following table presents additional information regarding our consolidated revenues and costs and expenses for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
NGL Pipelines & Services:		
Sales of NGLs and related products	\$ 2,887.2	\$ 1,943.5
Midstream services	458.6	460.3
Total	<u>3,345.8</u>	<u>2,403.8</u>
Crude Oil Pipelines & Services:		
Sales of crude oil	1,618.6	1,121.1
Midstream services	188.6	167.5
Total	<u>1,807.2</u>	<u>1,288.6</u>
Natural Gas Pipelines & Services:		
Sales of natural gas	544.0	315.0
Midstream services	217.2	235.0
Total	<u>761.2</u>	<u>550.0</u>
Petrochemical & Refined Products Services:		
Sales of petrochemicals and refined products	1,211.1	553.2
Midstream services	195.1	209.7
Total	<u>1,406.2</u>	<u>762.9</u>
Total consolidated revenues	<u>\$ 7,320.4</u>	<u>\$ 5,005.3</u>
Consolidated costs and expenses		
Operating costs and expenses:		
Cost of sales	\$ 5,335.7	\$ 3,208.3
Other operating costs and expenses (1)	610.4	573.8
Depreciation, amortization and accretion	376.2	358.2
Impairment and related charges	11.2	1.7
Net losses (gains) attributable to asset sales	(0.3)	4.9
General and administrative costs	50.4	43.9
Total consolidated costs and expenses	<u>\$ 6,383.6</u>	<u>\$ 4,190.8</u>

(1) Represents the cost of operating our plants, pipelines and other fixed assets excluding: depreciation, amortization and accretion charges; asset impairment and related charges; and net losses (or gains) attributable to asset sales.

Fluctuations in our product sales revenues and related cost of sales amounts are explained in part by changes in energy commodity prices. In general, lower energy commodity prices result in a decrease in our revenues attributable to product sales; however, these lower commodity prices also decrease the associated cost of sales as purchase costs decline. The same correlation would be true in the case of higher energy commodity sales prices and purchase costs.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 10. Earnings Per Unit

The following table presents our calculation of basic and diluted earnings per unit for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
BASIC EARNINGS PER UNIT		
Net income attributable to limited partners	\$ 760.7	\$ 661.2
Undistributed earnings allocated and cash payments on phantom unit awards (1)	(4.0)	(3.2)
Net income available to common unitholders	<u>\$ 756.7</u>	<u>\$ 658.0</u>
Basic weighted-average number of common units outstanding	<u>2,126.2</u>	<u>2,033.6</u>
Basic earnings per unit	<u>\$ 0.36</u>	<u>\$ 0.32</u>
DILUTED EARNINGS PER UNIT		
Net income attributable to limited partners	<u>\$ 760.7</u>	<u>\$ 661.2</u>
Diluted weighted-average number of units outstanding:		
Distribution-bearing common units	2,126.2	2,033.6
Phantom units (1)	8.7	6.9
Total	<u>2,134.9</u>	<u>2,040.5</u>
Diluted earnings per unit	<u>\$ 0.36</u>	<u>\$ 0.32</u>

(1) Each phantom unit award includes a distribution equivalent right ("DER"), which entitles the recipient to receive cash payments equal to the product of the number of phantom unit awards and the cash distribution per unit paid to our common unitholders. Cash payments made in connection with DERs are nonforfeitable. As a result, the phantom units are considered participating securities for purposes of computing basic earnings per unit.

Note 11. Equity-Based Awards

An allocated portion of the fair value of EPCO's equity-based awards is charged to us under the ASA. The following table summarizes compensation expense we recognized in connection with equity-based awards for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Equity-classified awards:		
Phantom unit awards	\$ 22.8	\$ 19.4
Restricted common unit awards	0.5	2.2
Profits interest awards	1.5	0.7
Liability-classified awards	<u>0.2</u>	<u>0.1</u>
Total	<u>\$ 25.0</u>	<u>\$ 22.4</u>

The fair value of equity-classified awards is amortized into earnings over the requisite service or vesting period. Equity-classified awards are expected to result in the issuance of common units upon vesting. Compensation expense for liability-classified awards is recognized over the requisite service or vesting period based on the fair value of the award remeasured at each reporting date. Liability-classified awards are settled in cash upon vesting.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

At March 31, 2017, all of the outstanding phantom unit awards were granted under EPCO's 2008 Enterprise Products Long-Term Incentive Plan (Third Amendment and Restatement) ("2008 Plan"). The maximum number of common units authorized for issuance under the 2008 Plan was 40,000,000 at March 31, 2017. This amount will automatically increase under the terms of the 2008 Plan by 5,000,000 common units on January 1, 2018 and will continue to automatically increase annually on January 1 thereafter during the term of the 2008 Plan; provided, however, that in no event shall the maximum aggregate number exceed 70,000,000 common units. After giving effect to awards granted under the 2008 Plan through March 31, 2017, a total of 18,863,972 additional common units were available for issuance under this plan.

EPCO serves as the general partner of four limited partnerships that were formed in 2016 (generally referred to as "Employee Partnerships") to serve as incentive arrangements for key employees of EPCO by providing them a "profits interest" in an Employee Partnership. The names of the Employee Partnerships are EPD PubCo Unit I L.P. ("PubCo I"), EPD PubCo Unit II L.P. ("PubCo II"), EPD PubCo Unit III L.P. ("PubCo III") and EPD PrivCo Unit I L.P. ("PrivCo I").

At March 31, 2017, a small number of restricted common unit awards remained outstanding under the Enterprise Products 1998 Long-Term Incentive Plan ("1998 Plan"). The 1998 Plan is effectively closed and no new awards have been granted under this plan since 2014.

Phantom Unit Awards

Phantom unit awards allow recipients to acquire our common units (at no cost to the recipient apart from fulfilling service and other conditions) once a defined vesting period expires, subject to customary forfeiture provisions. Phantom unit awards generally vest at a rate of 25% per year beginning one year after the grant date and are non-vested until the required service periods expire.

At March 31, 2017, substantially all of our phantom unit awards are expected to result in the issuance of common units upon vesting; therefore, the applicable awards are accounted for as equity-classified awards. The grant date fair value of a phantom unit award is based on the market price per unit of our common units on the date of grant. Compensation expense is recognized based on the grant date fair value, net of an allowance for estimated forfeitures, over the requisite service or vesting period.

The following table presents phantom unit award activity for the period indicated:

	Number of Units	Weighted- Average Grant Date Fair Value per Unit (1)
Phantom unit awards at January 1, 2017	7,767,501	\$ 27.20
Granted (2)	4,203,510	\$ 28.87
Vested	(2,238,568)	\$ 28.33
Forfeited	(41,684)	\$ 28.19
Phantom unit awards at March 31, 2017	<u>9,690,759</u>	<u>\$ 27.66</u>

(1) Determined by dividing the aggregate grant date fair value of awards (before an allowance for forfeitures) by the number of awards issued.

(2) The aggregate grant date fair value of phantom unit awards issued during 2017 was \$121.4 million based on a grant date market price of our common units of \$28.87 per unit. An estimated annual forfeiture rate of 3.8% was applied to these awards.

The 2008 Plan provides for the issuance of DERs in connection with phantom unit awards. A DER entitles the participant to nonforfeitable cash payments equal to the product of the number of phantom unit awards outstanding for the participant and the cash distribution per common unit paid to our common unitholders. Cash payments made in connection with DERs are charged to partners' equity when the phantom unit award is expected to result in the issuance of common units; otherwise, such amounts are expensed.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table presents supplemental information regarding phantom unit awards for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Cash payments made in connection with DERs	\$ 3.2	\$ 2.0
Total intrinsic value of phantom unit awards that vested during period	63.2	36.3

For the EPCO group of companies, the unrecognized compensation cost associated with phantom unit awards was \$166.1 million at March 31, 2017, of which our share of the cost is currently estimated to be \$145.8 million. Due to the graded vesting provisions of these awards, we expect to recognize our share of the unrecognized compensation cost for these awards over a weighted-average period of 2.3 years.

Profits Interest Awards

In 2016, EPCO Holdings Inc. ("EPCO Holdings"), a privately held affiliate of EPCO, contributed a portion of the Enterprise common units it owned to each of the Employee Partnerships. In exchange for these contributions, EPCO Holdings was admitted as the Class A limited partner of each Employee Partnership. Also on the applicable contribution date, certain key EPCO employees were issued Class B limited partner interests (i.e., profits interest awards) and admitted as Class B limited partners of each Employee Partnership, all without any capital contribution by such employees. EPCO serves as the general partner of each Employee Partnership.

The following table summarizes key elements of each Employee Partnership:

Employee Partnership	Enterprise Common Units owned by Employee Partnership	Class A Capital Base (1)	Class A Preference Return (2)	Expected Liquidation Date	Estimated Grant Date Fair Value of Profits Interest Awards (3)	Unrecognized Compensation Cost (4)
PubCo I	2,723,052 units	\$63.7 million	\$ 0.39	Feb. 2020	\$13.2 million	\$9.6 million
PubCo II	2,834,198 units	\$66.3 million	\$ 0.39	Feb. 2021	\$14.7 million	\$11.5 million
PubCo III	105,000 units	\$2.5 million	\$ 0.39	Apr. 2020	\$0.6 million	\$0.4 million
PrivCo I	1,111,438 units	\$26.0 million	\$ 0.39	Feb. 2021	\$5.8 million	\$1.0 million

- (1) Represents fair market value of the Enterprise common units contributed to each Employee Partnership at the applicable contribution date.
- (2) Each quarter, the Class A limited partner in each Employee Partnership is paid a cash distribution equal to the product of (i) the number of common units owned by the Employee Partnership and (ii) the Class A Preference Return of \$0.39 per unit (subject to equitable adjustment in order to reflect any equity split, equity distribution or dividend, reverse split, combination, reclassification, recapitalization or other similar event affecting such common units). To the extent that the Employee Partnership has cash remaining after making this quarterly payment to the Class A limited partner, the residual cash is distributed to the Class B limited partners on a quarterly basis.
- (3) Represents the total grant date fair value of the profits interest awards irrespective of how such costs will be allocated between us and EPCO and its privately held affiliates.
- (4) Represents our expected share of the unrecognized compensation cost at March 31, 2017. We expect to recognize our share of the unrecognized compensation cost for PubCo I, PubCo II, PubCo III and PrivCo I over a weighted-average period of 2.9 years, 3.9 years, 3.0 years and 3.9 years, respectively.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The grant date fair value of each Employee Partnership is based on (i) the estimated value (as determined using a Black-Scholes option pricing model) of such Employee Partnership's assets that would be distributed to the Class B limited partners thereof upon liquidation and (ii) the value, based on a discounted cash flow analysis, of the residual quarterly cash amounts that such Class B limited partners are expected to receive over the life of the Employee Partnership.

The following table summarizes the assumptions we used in applying a Black-Scholes option pricing model to derive that portion of the estimated grant date fair value of the profits interest awards for each Employee Partnership:

Employee Partnership	Expected Life of Award	Risk-Free Interest Rate	Expected Distribution Yield	Expected Unit Price Volatility
PubCo I	4.0 years	0.9% to 1.1%	6.2% to 6.8%	29% to 40%
PubCo II	5.0 years	1.1% to 1.6%	6.1% to 6.8%	27% to 40%
PubCo III	4.0 years	1.0% to 1.4%	6.1% to 6.2%	31% to 40%
PrivCo I	5.0 years	1.2% to 1.6%	6.1% to 6.7%	28% to 40%

Compensation expense attributable to the profits interest awards is based on the estimated grant date fair value of each award. A portion of the fair value of these equity-based awards is allocated to us under the ASA as a non-cash expense. We are not responsible for reimbursing EPCO for any expenses of the Employee Partnerships, including the value of any contributions of units made by EPCO Holdings.

Restricted Common Unit Awards

Restricted common unit awards allow recipients to acquire our common units (at no cost to the recipient apart from fulfilling service and other conditions) once a defined vesting period expires, subject to customary forfeiture provisions. Restricted common unit awards generally vest at a rate of 25% per year beginning one year after the grant date and are non-vested until the required service periods expire. Restricted common units are included in the number of common units outstanding as presented on our Unaudited Condensed Consolidated Balance Sheets.

The fair value of a restricted common unit award is based on the market price per unit of our common units on the date of grant. Compensation expense is recognized based on the grant date fair value, net of an allowance for estimated forfeitures, over the requisite service or vesting period.

The following table presents restricted common unit award activity for the period indicated:

	Number of Units	Weighted-Average Grant Date Fair Value per Unit (1)
Restricted common units at January 1, 2017	682,294	\$ 28.61
Vested	(665,920)	\$ 28.56
Forfeited	(1,250)	\$ 31.07
Restricted common units at March 31, 2017	<u>15,124</u>	<u>\$ 30.74</u>

(1) Determined by dividing the aggregate grant date fair value of awards (before an allowance for forfeitures) by the number of awards issued.

Each recipient of a restricted common unit award is entitled to nonforfeitable cash distributions equal to the product of the number of restricted common units outstanding for the participant and the cash distribution per unit paid to our common unitholders. These distributions are included in "Cash distributions paid to limited partners" as presented on our Unaudited Condensed Statements of Consolidated Cash Flows.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table presents supplemental information regarding restricted common unit awards for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Cash distributions paid to restricted common unitholders	\$ 0.3	\$ 0.8
Total intrinsic value of restricted common unit awards that vested during period	18.5	26.8

We expect to recognize our share of the unrecognized compensation cost for these awards by the end of 2017.

Note 12. Derivative Instruments, Hedging Activities and Fair Value Measurements

In the normal course of our business operations, we are exposed to certain risks, including changes in interest rates and commodity prices. In order to manage risks associated with assets, liabilities and certain anticipated future transactions, we use derivative instruments such as futures, forward contracts, swaps, options and other instruments with similar characteristics. Substantially all of our derivatives are used for non-trading activities.

Interest Rate Hedging Activities

We may utilize interest rate swaps, forward starting swaps and similar derivative instruments to manage our exposure to changes in interest rates charged on borrowings under certain consolidated debt agreements. This strategy may be used in controlling our overall cost of capital associated with such borrowings.

The following table summarizes our portfolio of interest rate swaps at March 31, 2017:

Hedged Transaction	Number and Type of Derivatives Outstanding	Notional Amount	Period of Hedge	Rate Swap	Accounting Treatment
Senior Notes OO	10 fixed-to-floating swaps	\$ 750.0	5/2015 to 5/2018	1.65% to 1.51%	Fair value hedge

The following table summarizes our portfolio of forward starting swaps at March 31, 2017:

Hedged Transaction	Number and Type of Derivatives Outstanding	Notional Amount	Expected Settlement Date	Average Rate Locked	Accounting Treatment
Future long-term debt offering	4 forward starting swaps	\$ 275.0	5/2018	2.02%	Cash flow hedge

Commodity Hedging Activities

The prices of natural gas, NGLs, crude oil, petrochemicals and refined products are subject to fluctuations in response to changes in supply and demand, market conditions and a variety of additional factors that are beyond our control. In order to manage such price risks, we enter into commodity derivative instruments such as physical forward contracts, futures contracts, fixed-for-float swaps and basis swaps.

At March 31, 2017, our predominant commodity hedging strategies consisted of (i) hedging anticipated future purchases and sales of commodity products associated with transportation, storage and blending activities, (ii) hedging natural gas processing margins and (iii) hedging the fair value of commodity products held in inventory.

- The objective of our anticipated future commodity purchases and sales hedging program is to hedge the margins of certain transportation, storage, blending and operational activities by locking in purchase and sale prices through the use of derivative instruments and related contracts.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

- The objective of our natural gas processing hedging program is to hedge an amount of earnings associated with these activities. We achieve this objective by executing fixed-price sales for a portion of our expected equity NGL production using derivative instruments and related contracts. For certain natural gas processing contracts, the hedging of expected equity NGL production also involves the purchase of natural gas for plant thermal reduction, which is hedged using derivative instruments and related contracts.
- The objective of our inventory hedging program is to hedge the fair value of commodity products currently held in inventory by locking in the sales price of the inventory through the use of derivative instruments and related contracts.

The following table summarizes our portfolio of commodity derivative instruments outstanding at March 31, 2017 (volume measures as noted):

Derivative Purpose	Volume (1)		Accounting Treatment
	Current (2)	Long-Term (2)	
Derivatives designated as hedging instruments:			
Natural gas processing:			
Forecasted natural gas purchases for plant thermal reduction (Bcf)	14.9	n/a	Cash flow hedge
Forecasted sales of NGLs (MMBbls)	3.5	n/a	Cash flow hedge
Octane enhancement:			
Forecasted purchases of NGLs (MMBbls)	0.5	n/a	Cash flow hedge
Forecasted sales of octane enhancement products (MMBbls)	0.8	n/a	Cash flow hedge
Natural gas marketing:			
Forecasted purchases of natural gas for fuel (Bcf)	4.5	n/a	Cash flow hedge
Natural gas storage inventory management activities (Bcf)	4.5	n/a	Fair value hedge
NGL marketing:			
Forecasted purchases of NGLs and related hydrocarbon products (MMBbls)	82.3	n/a	Cash flow hedge
Forecasted sales of NGLs and related hydrocarbon products (MMBbls)	93.4	n/a	Cash flow hedge
Refined products marketing:			
Forecasted purchases of refined products (MMBbls)	0.2	n/a	Cash flow hedge
Forecasted sales of refined products (MMBbls)	0.4	n/a	Cash flow hedge
Refined products inventory management activities (MMBbls)	5.4	n/a	Fair value hedge
Crude oil marketing:			
Forecasted purchases of crude oil (MMBbls)	12.5	n/a	Cash flow hedge
Forecasted sales of crude oil (MMBbls)	21.2	n/a	Cash flow hedge
Derivatives not designated as hedging instruments:			
Natural gas risk management activities (Bcf) (3,4)	188.6	21.7	Mark-to-market
NGL risk management activities (MMBbls) (4)	16.1	n/a	Mark-to-market
Refined products risk management activities (MMBbls) (4)	0.2	n/a	Mark-to-market
Crude oil risk management activities (MMBbls) (4)	25.2	10.4	Mark-to-market

- (1) Volume for derivatives designated as hedging instruments reflects the total amount of volumes hedged whereas volume for derivatives not designated as hedging instruments reflects the absolute value of derivative notional volumes.
- (2) The maximum term for derivatives designated as cash flow hedges, derivatives designated as fair value hedges and derivatives not designated as hedging instruments is December 2017, September 2017 and March 2020, respectively.
- (3) Current and long-term volumes include 55.3 Bcf and 10.5 Bcf, respectively, of physical derivative instruments that are predominantly priced at a marked-based index plus a premium or minus a discount related to location differences.
- (4) Reflects the use of derivative instruments to manage risks associated with transportation, processing and storage assets.

On January 3, 2017, the Chicago Mercantile Exchange ("CME") modified its exchange rules to recharacterize daily variation margin amounts as "final settlement" values. The modified rule ("CME Rule 814") impacts derivative financial instruments traded on exchanges administered by the CME, including the New York Mercantile Exchange. As a result of this rule change, we began reporting the affected derivative instruments on a net basis on our balance sheet during the first quarter of 2017. The netting process results in the elimination of derivative assets, derivative liabilities and associated restricted cash and related amounts with each other as if the underlying derivative instruments had settled on the balance sheet date. Historically through December 31, 2016, we reported such derivatives on a gross basis (i.e., not netted).

Derivative transactions cleared on exchanges other than the CME (e.g., the Intercontinental Exchange or ICE) continue to be reported on a gross basis.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Derivative assets and liabilities recorded on our Unaudited Condensed Consolidated Balance Sheets are presented on a gross-basis and determined at the individual transaction level. The tabular presentation above provides a means for comparing the gross amount of derivative assets and liabilities, excluding associated accounts payable and receivable, to the net amount that would likely be receivable or payable under a default scenario based on the existence of rights of offset in the respective derivative agreements. Any cash collateral paid or received is reflected in these tables, but only to the extent that it represents variation margins. Any amounts associated with derivative prepayments or initial margins that are not influenced by the derivative asset or liability amounts or those that are determined solely on their volumetric notional amounts are excluded from these tables.

The following tables present the effect of our derivative instruments designated as fair value hedges on our Unaudited Condensed Statements of Consolidated Operations for the periods indicated:

Derivatives in Fair Value Hedging Relationships	Location	Gain (Loss) Recognized in Income on Derivative	
		For the Three Months Ended March 31,	
		2017	2016
Interest rate derivatives	Interest expense	\$ (0.9)	\$ 6.1
Commodity derivatives	Revenue	18.8	(19.0)
Total		<u>\$ 17.9</u>	<u>\$ (12.9)</u>

Derivatives in Fair Value Hedging Relationships	Location	Gain (Loss) Recognized in Income on Hedged Item	
		For the Three Months Ended March 31,	
		2017	2016
Interest rate derivatives	Interest expense	\$ 0.9	\$ (6.2)
Commodity derivatives	Revenue	(12.4)	28.0
Total		<u>\$ (11.5)</u>	<u>\$ 21.8</u>

For the three months ended March 31, 2017, the net gain of \$6.4 million recognized in income from our commodity derivatives designated as fair value hedges includes \$0.6 million of net losses attributable to hedge ineffectiveness. The remaining \$7.0 million of net gain recognized during the three months ended March 31, 2017 was primarily related to prompt-to-forward month price differentials that were excluded from the assessment of hedge effectiveness. Net gains or losses due to ineffectiveness and from those amounts excluded from the assessment of hedge effectiveness were immaterial for all other periods presented.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following tables present the effect of our derivative instruments designated as cash flow hedges on our Unaudited Condensed Statements of Consolidated Operations and Unaudited Condensed Statements of Consolidated Comprehensive Income for the periods indicated:

Derivatives in Cash Flow Hedging Relationships	Change in Value Recognized in Other Comprehensive Income (Loss) on Derivative (Effective Portion)	
	For the Three Months Ended March 31,	
	2017	2016
Interest rate derivatives	\$ 2.4	\$ --
Commodity derivatives – Revenue (1)	147.6	3.3
Commodity derivatives – Operating costs and expenses (1)	(2.8)	(4.5)
Total	\$ 147.2	\$ (1.2)

(1) The fair value of these derivative instruments will be reclassified to their respective locations on the Unaudited Condensed Statement of Consolidated Operations upon settlement of the underlying derivative transactions, as appropriate.

Derivatives in Cash Flow Hedging Relationships	Location	Gain (Loss) Reclassified from Accumulated Other Comprehensive Income (Loss) to Income (Effective Portion)	
		For the Three Months Ended March 31,	
		2017	2016
Interest rate derivatives	Interest expense	\$ (9.6)	\$ (9.2)
Commodity derivatives	Revenue	(7.5)	58.8
Commodity derivatives	Operating costs and expenses	0.4	(1.6)
Total		\$ (16.7)	\$ 48.0

Derivatives in Cash Flow Hedging Relationships	Location	Gain (Loss) Recognized in Income on Derivative (Ineffective Portion)	
		For the Three Months Ended March 31,	
		2017	2016
Commodity derivatives	Operating costs and expenses	\$ (1.0)	\$ --

Over the next twelve months, we expect to reclassify \$41.4 million of losses attributable to interest rate derivative instruments from accumulated other comprehensive loss to earnings as an increase in interest expense. Likewise, we expect to reclassify \$68.0 million of gains attributable to commodity derivative instruments from accumulated other comprehensive income to earnings, \$67.5 million as an increase in revenue and \$0.5 million as a decrease in operating costs and expenses.

The following table presents the effect of our derivative instruments not designated as hedging instruments on our Unaudited Condensed Statements of Consolidated Operations for the periods indicated:

Derivatives Not Designated as Hedging Instruments	Location	Gain (Loss) Recognized in Income on Derivative	
		For the Three Months Ended March 31,	
		2017	2016
Commodity derivatives	Revenue	\$ 15.7	\$ (1.3)
Commodity derivatives	Operating costs and expenses	4.5	0.1
Total		\$ 20.2	\$ (1.2)

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Fair Value Measurements

The following tables set forth, by level within the Level 1, 2 and 3 fair value hierarchy, the carrying values of our financial assets and liabilities at the dates indicated. These assets and liabilities are measured on a recurring basis and are classified based on the lowest level of input used to estimate their fair value. Our assessment of the relative significance of such inputs requires judgment.

The values for commodity derivatives at March 31, 2017 are presented before and after the application of CME Rule 814, which deems that financial instruments cleared by the CME are settled daily in connection with variation margin payments. As a result of this new exchange rule, CME-related derivatives are considered to have no fair value at the balance sheet date for financial reporting purposes; however, the derivatives remain outstanding and subject to future commodity price fluctuations until they are settled in accordance with their contractual terms.

	March 31, 2017			Total
	Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial assets:				
Interest rate derivatives	\$ --	\$ 39.3	\$ --	\$ 39.3
Commodity derivatives:				
Value before application of CME Rule 814	57.6	174.3	1.5	233.4
Impact of CME Rule 814 change	(57.6)	(134.6)	--	(192.2)
Total commodity derivatives	--	39.7	1.5	41.2
Total financial assets	\$ --	\$ 79.0	\$ 1.5	\$ 80.5
Financial liabilities:				
Liquidity Option Agreement	\$ --	\$ --	\$ 275.1	\$ 275.1
Interest rate derivatives	--	2.0	--	2.0
Commodity derivatives:				
Value before application of CME Rule 814	35.4	172.9	0.8	209.1
Impact of CME Rule 814 change	(35.4)	(129.2)	--	(164.6)
Total commodity derivatives	--	43.7	0.8	44.5
Total financial liabilities	\$ --	\$ 45.7	\$ 275.9	\$ 321.6

	December 31, 2016			Total
	Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets and Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial assets:				
Interest rate derivatives	\$ --	\$ 36.5	\$ --	\$ 36.5
Commodity derivatives	84.5	455.2	1.7	541.4
Total financial assets	\$ 84.5	\$ 491.7	\$ 1.7	\$ 577.9
Financial liabilities:				
Liquidity Option Agreement	\$ --	\$ --	\$ 269.6	\$ 269.6
Interest rate derivatives	--	1.1	--	1.1
Commodity derivatives	136.8	602.3	0.3	739.4
Total financial liabilities	\$ 136.8	\$ 603.4	\$ 269.9	\$ 1,010.1

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table sets forth a reconciliation of changes in the fair values of our recurring Level 3 financial assets and liabilities on a combined basis for the periods indicated:

	Location	For the Three Months Ended March 31,	
		2017	2016
Financial liability balance, net, January 1		\$ (268.2)	\$ (246.7)
Total gains (losses) included in:			
Net income (1)	Revenue	0.7	0.7
Net income	Other expense, net	(5.5)	2.2
Other comprehensive income (loss)	Commodity derivative instruments – changes in fair value of cash flow hedges	--	1.5
Settlements	Revenue	(1.4)	(0.1)
Transfers out of Level 3		--	0.1
Financial liability balance, net, March 31		<u>\$ (274.4)</u>	<u>\$ (242.3)</u>

(1) There were unrealized losses of \$0.6 million and unrealized gains of \$0.6 million included in these amounts for the three months ended March 31, 2017 and 2016, respectively.

The following table provides quantitative information regarding our recurring Level 3 fair value measurements for commodity derivatives at March 31, 2017:

	Fair Value		Valuation Techniques	Unobservable Input	Range
	Financial Assets	Financial Liabilities			
Commodity derivatives – Crude oil	\$ 1.5	\$ 0.8	Discounted cash flow	Forward commodity prices	\$48.68-\$51.93/barrel

With respect to commodity derivatives, we believe forward commodity prices are the most significant unobservable inputs in determining our Level 3 recurring fair value measurements at March 31, 2017. In general, changes in the price of the underlying commodity increases or decreases the fair value of a commodity derivative depending on whether the derivative was purchased or sold. We generally expect changes in the fair value of our derivative instruments to be offset by corresponding changes in the fair value of our hedged exposures.

Nonrecurring Fair Value Measurements

The following table summarizes our non-cash asset impairment charges for long-lived assets by segment during each of the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
NGL Pipelines & Services	\$ 0.2	\$ 0.3
Crude Oil Pipelines & Services	--	0.2
Natural Gas Pipelines & Services	0.2	--
Petrochemical & Refined Products Services	--	0.1
Total	<u>\$ 0.4</u>	<u>\$ 0.6</u>

Impairment charges are primarily a component of "Operating costs and expenses" on our Unaudited Condensed Statements of Consolidated Operations.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table presents categories of long-lived assets that were subject to non-recurring fair value measurements during the three months ended March 31, 2017:

	Fair Value Measurements at the End of the Reporting Period Using				
	Carrying Value at March 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Non-Cash Impairment Loss
Long-lived assets disposed of other than by sale	\$ --	\$ --	\$ --	\$ --	\$ 0.4

Total asset impairment and related charges during the three months ended March 31, 2017 were \$11.2 million, which consisted of \$0.4 million of impairment charges attributable to long-lived assets and \$10.8 million of impairment charges attributable to the write-down of spare parts classified as current assets.

The following table presents categories of long-lived assets that were subject to non-recurring fair value measurements during the three months ended March 31, 2016:

	Fair Value Measurements at the End of the Reporting Period Using				
	Carrying Value at March 31, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Non-Cash Impairment Loss
Long-lived assets disposed of other than by sale	\$ --	\$ --	\$ --	\$ --	\$ 0.6

Total asset impairment and related charges during the three months ended March 31, 2016 were \$1.7 million, which consisted of \$0.6 million of impairment charges attributable to long-lived assets and \$1.1 million of impairment charges attributable to the write-down of spare parts classified as current assets.

Other Fair Value Information

The carrying amounts of cash and cash equivalents (including restricted cash balances), accounts receivable, commercial paper notes and accounts payable approximate their fair values based on their short-term nature. The estimated total fair value of our fixed-rate debt obligations was \$21.98 billion and \$21.95 billion at March 31, 2017 and December 31, 2016, respectively. The aggregate carrying value of these debt obligations was \$20.85 billion at March 31, 2017 and December 31, 2016. These values are based on quoted market prices for such debt or debt of similar terms and maturities (Level 2), our credit standing and the credit standing of our counterparties. Changes in market rates of interest affect the fair value of our fixed-rate debt. The amounts reported for fixed-rate debt obligations exclude those amounts hedged using fixed-to-floating interest rate swaps. See "Interest Rate Hedging Activities" within this Note 12 for additional information. The carrying values of our variable-rate long-term debt obligations approximate their fair values since the associated interest rates are market-based. We do not have any long-term investments in debt or equity securities recorded at fair value.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 13. Related Party Transactions

The following table summarizes our related party transactions for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Revenues – related parties:		
Unconsolidated affiliates	\$ 10.8	\$ 15.6
Costs and expenses – related parties:		
EPCO and its privately held affiliates	\$ 243.1	\$ 237.3
Unconsolidated affiliates	38.2	72.9
Total	\$ 281.3	\$ 310.2

The following table summarizes our related party accounts receivable and accounts payable balances at the dates indicated:

	March 31, 2017	December 31, 2016
Accounts receivable - related parties:		
Unconsolidated affiliates	\$ 1.6	\$ 1.1
Accounts payable - related parties:		
EPCO and its privately held affiliates	\$ 39.2	\$ 88.9
Unconsolidated affiliates	10.9	16.2
Total	\$ 50.1	\$ 105.1

We believe that the terms and provisions of our related party agreements are fair to us; however, such agreements and transactions may not be as favorable to us as we could have obtained from unaffiliated third parties.

Relationship with EPCO and Affiliates

We have an extensive and ongoing relationship with EPCO and its privately held affiliates (including Enterprise GP, our general partner), which are not a part of our consolidated group of companies.

At March 31, 2017, EPCO and its privately held affiliates (including Dan Duncan LLC and certain Duncan family trusts) beneficially owned the following limited partner interests in us:

Total Number of Units	Percentage of Total Units Outstanding
685,481,428	32%

Of the total number of units held by EPCO and its privately held affiliates, 118,000,000 have been pledged as security under the credit facilities of a privately held affiliate at March 31, 2017. These credit facilities contain customary and other events of default, including defaults by us and other affiliates of EPCO. An event of default, followed by a foreclosure on the pledged collateral, could ultimately result in a change in ownership of these units and affect the market price of our common units.

We and Enterprise GP are both separate legal entities apart from each other and apart from EPCO and its other affiliates, with assets and liabilities that are also separate from those of EPCO and its other affiliates. EPCO and its privately held affiliates depend on the cash distributions they receive from us and other investments to fund their other activities and to meet their debt obligations. During the three months ended March 31, 2017 and 2016, we paid EPCO and its privately held affiliates cash distributions totaling \$275.2 million and \$260.1 million, respectively.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

We have no employees. All of our operating functions and general and administrative support services are provided by employees of EPCO pursuant to the ASA or by other service providers. The following table presents our related party costs and expenses attributable to the ASA with EPCO for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Operating costs and expenses	\$ 211.6	\$ 205.4
General and administrative expenses	26.8	27.3
Total costs and expenses	<u>\$ 238.4</u>	<u>\$ 232.7</u>

Note 14. Commitments and Contingencies

Litigation

As part of our normal business activities, we may be named as defendants in legal proceedings, including those arising from regulatory and environmental matters. Although we are insured against various risks to the extent we believe it is prudent, there is no assurance that the nature and amount of such insurance will be adequate, in every case, to fully indemnify us against losses arising from future legal proceedings. We will vigorously defend the partnership in litigation matters.

Management has regular quarterly litigation reviews, including updates from legal counsel, to assess the possible need for accounting recognition and disclosure of these contingencies. We accrue an undiscounted liability for those contingencies where the loss is probable and the amount can be reasonably estimated. If a range of probable loss amounts can be reasonably estimated and no amount within the range is a better estimate than any other amount, then the minimum amount in the range is accrued.

We do not record a contingent liability when the likelihood of loss is probable but the amount cannot be reasonably estimated or when the likelihood of loss is believed to be only reasonably possible or remote. For contingencies where an unfavorable outcome is reasonably possible and the impact would be material to our consolidated financial statements, we disclose the nature of the contingency and, where feasible, an estimate of the possible loss or range of loss. Based on a consideration of all relevant known facts and circumstances, we do not believe that the ultimate outcome of any currently pending litigation directed against us will have a material impact on our consolidated financial statements either individually at the claim level or in the aggregate.

At March 31, 2017 and December 31, 2016, our accruals for litigation contingencies were \$0.3 million and were recorded in our Unaudited Condensed Consolidated Balance Sheets as a component of "Other current liabilities." Our evaluation of litigation contingencies is based on the facts and circumstances of each case and predicting the outcome of these matters involves uncertainties. In the event the assumptions we use to evaluate these matters change in future periods or new information becomes available, we may be required to record additional accruals. In an effort to mitigate expenses associated with litigation, we may settle legal proceedings out of court.

ETP Matter. In connection with a proposed pipeline project, we and Energy Transfer Partners, L.P. ("ETP") signed a non-binding letter of intent in April 2011 that disclaimed any partnership or joint venture related to such project absent executed definitive documents and board approvals of the respective companies. Definitive agreements were never executed and board approval was never obtained for the potential pipeline project. In August 2011, the proposed pipeline project was cancelled due to a lack of customer support.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In September 2011, ETP filed suit against us and a third party in connection with the cancelled project alleging, among other things, that we and ETP had formed a "partnership." The case was tried in the District Court of Dallas County, Texas, 298th Judicial District. While we firmly believe, and argued during our defense, that no agreement was ever executed forming a legal joint venture or partnership between the parties, the jury found that the actions of the two companies, nevertheless, constituted a legal partnership. As a result, the jury found that ETP was wrongfully excluded from a subsequent pipeline project involving a third party, and awarded ETP \$319.4 million in actual damages on March 4, 2014. On July 29, 2014, the court entered judgment against us in an aggregate amount of \$535.8 million, which includes (i) \$319.4 million as the amount of actual damages awarded by the jury, (ii) an additional \$150.0 million in disgorgement for the alleged benefit we received due to a breach of fiduciary duties by us against ETP and (iii) prejudgment interest in the amount of \$66.4 million. The court also awarded post-judgment interest on such aggregate amount, to accrue at a rate of 5%, compounded annually.

We do not believe that the verdict or the judgment entered against us is supported by the evidence or the law. We filed our Brief of the Appellant in the Court of Appeals for the Fifth District of Dallas, Texas on March 30, 2015 and ETP filed its Brief of Appellees on June 29, 2015. We filed our Reply Brief of Appellant on September 18, 2015. Oral argument was conducted on April 20, 2016, and the case has now been submitted to the Court of Appeals for its consideration. We intend to vigorously oppose the judgment through the appeals process. As of March 31, 2017, we have not recorded a provision for this matter as management believes payment of damages in this case is not probable.

PDH Litigation. In July 2013, we executed a contract with Foster Wheeler USA Corporation ("Foster Wheeler") pursuant to which Foster Wheeler was to serve as the general contractor responsible for the engineering, procurement, construction and installation of our propane dehydrogenation ("PDH") facility. In November 2014, Foster Wheeler was acquired by an affiliate of AMEC plc to form Amec Foster Wheeler plc, and Foster Wheeler is now known as Amec Foster Wheeler USA Corporation ("AFW"). In December 2015, Enterprise and AFW entered into a transition services agreement under which AFW was partially terminated from the PDH project. In December 2015, Enterprise engaged a second contractor, Optimized Process Designs LLC, to complete the construction and installation of the PDH facility.

On September 2, 2016, we terminated AFW for cause and filed a lawsuit in the 151st Judicial Civil District Court of Harris County, Texas against AFW and its parent company, Amec Foster Wheeler plc, asserting claims for breach of contract, breach of warranty, fraudulent inducement, string-along fraud, gross negligence, professional negligence, negligent misrepresentation and attorneys' fees. We intend to diligently prosecute these claims and seek all direct, consequential, and exemplary damages to which we may be entitled.

Contractual Obligations

Scheduled Maturities of Debt. We have long-term and short-term payment obligations under debt agreements. See Note 7 for additional information regarding our scheduled future maturities of debt principal.

Operating Lease Obligations. Consolidated lease and rental expense was \$26.2 million and \$28.5 million during the three months ended March 31, 2017 and 2016, respectively. Our operating lease commitments at March 31, 2017 did not differ materially from those reported in our 2016 Form 10-K.

Purchase Obligations. Our consolidated purchase obligations at March 31, 2017 did not differ materially from those reported in our 2016 Form 10-K.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Liquidity Option Agreement

We entered into a put option agreement (the "Liquidity Option Agreement" or "Liquidity Option") with Oiltanking Holding Americas, Inc. ("OTA") and Marquard & Bahls ("M&B") in connection with the Oiltanking acquisition. Under the Liquidity Option Agreement, we granted M&B the option to sell to us 100% of the issued and outstanding capital stock of OTA at any time within a 90-day period commencing on February 1, 2020. If the Liquidity Option is exercised, we would indirectly acquire any Enterprise common units owned by OTA and assume all future income tax obligations of OTA associated with (i) owning common units encumbered by the entity-level taxes of a U.S. corporation and (ii) OTA's deferred tax liabilities. To the extent that the sum of OTA's deferred tax liabilities exceeds the then current book value of the Liquidity Option liability, we will recognize expense for the difference.

The carrying value of the Liquidity Option Agreement, which is a component of "Other long-term liabilities" on our Unaudited Condensed Consolidated Balance Sheet, was \$275.1 million and \$269.6 million at March 31, 2017 and December 31, 2016, respectively. The fair value of the Liquidity Option, at any measurement date, represents the present value of estimated federal and state income tax payments that we believe a market participant would incur on the future taxable income of OTA. We expect that OTA's taxable income would, in turn, be based on an allocation of our partnership's taxable income to the common units held by OTA and reflect any tax planning we believe could be employed. Our valuation estimate for the Liquidity Option at March 31, 2017 is based on several inputs that are not observable in the market (i.e., Level 3 inputs) such as the following:

- OTA remains in existence (i.e., is not dissolved and its assets sold) between one and 30 years following exercise of the Liquidity Option, depending on the liquidity preference of its owner. An equal probability that OTA will be dissolved was assigned to each year in the 30-year forecast period;
- OTA assumes approximately \$2.2 billion of associated long-term debt (30-year maturity) immediately after the Liquidity Option is exercised. For purposes of the valuation at March 31, 2017, we used a market rate commensurate with level of debt and tenure of approximately 4.85%. If the assumption of debt is excluded from the valuation model at March 31, 2017 (and all other inputs remained the same), the estimated fair value of the Liquidity Option would have increased by \$229.1 million and resulted in the recognition of an equal amount of expense at the time of change;
- Forecasted annual growth rates of Enterprise's taxable earnings before interest, taxes, depreciation and amortization ranging from 0.1% to 13.6%;
- OTA's ownership interest in Enterprise common units is assumed to be diluted over time in connection with Enterprise's issuance of equity for general company reasons. For purposes of the valuation at March 31, 2017, we used ownership interests ranging from 1.9% to 2.5%;
- OTA pays an aggregate federal and state income tax rate of 38% on its taxable income; and
- A discount rate of 7.7% based on our weighted-average cost of capital at March 31, 2017.

Furthermore, our valuation estimate incorporates probability-weighted scenarios reflecting the likelihood that M&B may elect to divest a portion of the Enterprise common units held by OTA prior to exercise of the option. At March 31, 2017, based on these scenarios, we expect that OTA would own approximately 85% of the 54,807,352 Enterprise common units it received in Step 1 when the option period begins in February 2020. If our valuation estimate had assumed that OTA owned all of the Enterprise common units it received in Step 1 at the time of exercise (and all other inputs remained the same), the estimated fair value of the Liquidity Option liability at March 31, 2017 would have increased by \$47.1 million.

Changes in the fair value of the Liquidity Option are recognized in earnings as a component of other income (expense) on our Unaudited Condensed Statements of Consolidated Operations. Results for the three months ended March 31, 2017 and 2016 include \$5.5 million of expense and \$2.2 million of benefit, respectively, of aggregate non-cash adjustments attributable to accretion and changes in management estimates regarding inputs to the valuation model.

ENTERPRISE PRODUCTS PARTNERS L.P.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 15. Supplemental Cash Flow Information

The following table presents the net effect of changes in our operating accounts for the periods indicated:

	For the Three Months Ended March 31,	
	2017	2016
Decrease (increase) in:		
Accounts receivable – trade	\$ 110.1	\$ 124.6
Accounts receivable – related parties	(0.6)	0.4
Inventories	(71.9)	(194.3)
Prepaid and other current assets	249.0	5.3
Other assets	(2.2)	1.3
Increase (decrease) in:		
Accounts payable – trade	6.5	(64.8)
Accounts payable – related parties	(21.1)	(46.7)
Accrued product payables	(16.8)	228.7
Accrued interest	(137.9)	(158.2)
Other current liabilities	(400.2)	(84.4)
Other liabilities	(3.7)	1.7
Net effect of changes in operating accounts	<u>\$ (288.8)</u>	<u>\$ (186.4)</u>

We incurred liabilities for construction in progress that had not been paid at March 31, 2017 and December 31, 2016 of \$240.9 million and \$124.3 million, respectively. Such amounts are not included under the caption "Capital expenditures" on the Unaudited Condensed Statements of Consolidated Cash Flows.

On certain of our capital projects, third parties are obligated to reimburse us for all or a portion of project expenditures. The majority of such arrangements are associated with projects related to pipeline construction activities and production well tie-ins. These cash receipts are presented as "Contributions in aid of construction costs" within the investing activities section of our Unaudited Condensed Statements of Consolidated Cash Flows.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 16. Condensed Consolidating Financial Information

EPO conducts all of our business. Currently, we have no independent operations and no material assets outside those of EPO.

EPO has issued publicly traded debt securities. As the parent company of EPO, Enterprise Products Partners L.P. guarantees substantially all of the debt obligations of EPO. If EPO were to default on any of its guaranteed debt, Enterprise Products Partners L.P. would be responsible for full and unconditional repayment of that obligation. See Note 7 for additional information regarding our consolidated debt obligations.

EPO's consolidated subsidiaries have no significant restrictions on their ability to pay distributions or make loans to Enterprise Products Partners L.P.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**For the Three Months Ended March 31, 2017 and 2016**

The following information should be read in conjunction with our Unaudited Condensed Consolidated Financial Statements and accompanying Notes included in this quarterly report on Form 10-Q and the Audited Consolidated Financial Statements and related Notes, together with our discussion and analysis of financial position and results of operations, included in our annual report on Form 10-K for the year ended December 31, 2016 (the “2016 Form 10-K”), as filed on February 24, 2017 with the U.S. Securities and Exchange Commission (“SEC”). Our financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) in the United States (“U.S.”).

Key References Used in this Management’s Discussion and Analysis

Unless the context requires otherwise, references to “we,” “us,” “our,” “Enterprise” or “Enterprise Products Partners” are intended to mean the business and operations of Enterprise Products Partners L.P. and its consolidated subsidiaries. References to “EPO” mean Enterprise Products Operating LLC, which is a wholly owned subsidiary of Enterprise, and its consolidated subsidiaries, through which Enterprise Products Partners L.P. conducts its business. Enterprise is managed by its general partner, Enterprise Products Holdings LLC (“Enterprise GP”), which is a wholly owned subsidiary of Dan Duncan LLC, a privately held Texas limited liability company.

The membership interests of Dan Duncan LLC are owned by a voting trust, the current trustees (“DD LLC Trustees”) of which are: (i) Randa Duncan Williams, who is also a director and Chairman of the Board of Directors (the “Board”) of Enterprise GP; (ii) Richard H. Bachmann, who is also a director and Vice Chairman of the Board of Enterprise GP; and (iii) Dr. Ralph S. Cunningham. Ms. Duncan Williams and Mr. Bachmann also currently serve as managers of Dan Duncan LLC along with W. Randall Fowler, who is also a director and President of Enterprise GP.

References to “EPCO” mean Enterprise Products Company, a privately held Texas corporation, and its privately held affiliates. A majority of the outstanding voting capital stock of EPCO is owned by a voting trust, the current trustees (“EPCO Trustees”) of which are: (i) Ms. Duncan Williams, who serves as Chairman of EPCO; (ii) Dr. Cunningham, who serves as Vice Chairman of EPCO; and (iii) Mr. Bachmann, who serves as the President and Chief Executive Officer of EPCO. Ms. Duncan Williams and Mr. Bachmann also currently serve as directors of EPCO along with Mr. Fowler, who is also the Executive Vice President and Chief Administrative Officer of EPCO. EPCO, together with its privately held affiliates, owned approximately 32% of our limited partner interests at March 31, 2017.

As generally used in the energy industry and in this quarterly report, the acronyms below have the following meanings:

/d	=	per day	MMBbls	=	million barrels
BBtus	=	billion British thermal units	MMBPD	=	million barrels per day
Bcf	=	billion cubic feet	MMBtus	=	million British thermal units
BPD	=	barrels per day	MMcf	=	million cubic feet
MBPD	=	thousand barrels per day	TBtus	=	trillion British thermal units

As used in this quarterly report, the phrase “quarter-to-quarter” means the first quarter of 2017 compared to the first quarter of 2016.

Cautionary Statement Regarding Forward-Looking Information

This quarterly report on Form 10-Q contains various forward-looking statements and information that are based on our beliefs and those of our general partner, as well as assumptions made by us and information currently available to us. When used in this document, words such as “anticipate,” “project,” “expect,” “plan,” “seek,” “goal,” “estimate,” “forecast,” “intend,” “could,” “should,” “would,” “will,” “believe,” “may,” “potential” and similar expressions and statements regarding our plans and objectives for future operations are intended to identify forward-looking statements. Although we and our general partner believe that our expectations reflected in such forward-looking statements are reasonable, neither we nor our general partner can give any assurances that such expectations will prove to be correct. Forward-looking statements are subject to a variety of risks, uncertainties and assumptions as described in more detail under Part I, Item 1A of our 2016 Form 10-K and within Part II, Item 1A of this quarterly report. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those anticipated, estimated, projected or expected. You should not put undue reliance on any forward-looking statements. The forward-looking statements in this quarterly report speak only as of the date hereof. Except as required by federal and state securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or any other reason.

Overview of Business

We are a publicly traded Delaware limited partnership, the common units of which are listed on the New York Stock Exchange (“NYSE”) under the ticker symbol “EPD.” We were formed in April 1998 to own and operate certain natural gas liquids (“NGLs”) related businesses of EPCO and are a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, petrochemicals and refined products.

Our integrated midstream energy asset network links producers of natural gas, NGLs and crude oil from some of the largest supply basins in the U.S., Canada and the Gulf of Mexico with domestic consumers and international markets. Our midstream energy operations currently include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage, and export and import terminals (including those used to export liquefied petroleum gases, or “LPG,” and ethane); crude oil gathering, transportation, storage, and export and import terminals; petrochemical and refined products transportation, storage, export and import terminals, and related services; and a marine transportation business that operates primarily on the U.S. inland and Intracoastal Waterway systems. Our assets currently include approximately 50,000 miles of pipelines; 260 MMBbls of storage capacity for NGLs, crude oil, petrochemicals and refined products; and 14 Bcf of natural gas storage capacity.

We conduct substantially all of our business through EPO and are owned 100% by our limited partners from an economic perspective. Enterprise GP manages our partnership and owns a non-economic general partner interest in us. We, Enterprise GP, EPCO and Dan Duncan LLC are affiliates under the collective common control of the DD LLC Trustees and the EPCO Trustees. Like many publicly traded partnerships, we have no employees. All of our management, administrative and operating functions are performed by employees of EPCO pursuant to an administrative services agreement (the “ASA”) or by other service providers.

Our operations are reported under four business segments: (i) NGL Pipelines & Services, (ii) Crude Oil Pipelines & Services, (iii) Natural Gas Pipelines & Services and (iv) Petrochemical & Refined Products Services. See Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for information regarding our business segments.

We provide investors access to additional information regarding our partnership, including information relating to our governance procedures and principles, through our website, www.enterpriseproducts.com.

Significant Recent Developments

Plans to Build Shin Oak NGL Pipeline from Permian Basin to Mont Belvieu, Texas

In April 2017, we announced plans to build a 571-mile pipeline to transport growing NGL production from the Permian Basin to our NGL fractionation and storage complex located in Mont Belvieu, Texas. The Shin Oak NGL pipeline will originate at our Hobbs facility in Gaines County, Texas. The 24-inch diameter pipeline is expected to have an initial design capacity of 250 MBPD and be expandable to 600 MBPD. The project is supported by long-term shipper commitments and is expected to be placed into service during the second quarter of 2019.

Plans to Develop Ethylene Storage and Transportation Projects

In April 2017, we announced two expansion projects that will further develop our ethylene infrastructure in the Houston, Texas area. First, we plan to repurpose a large, high-capacity ethane storage well at our Mont Belvieu, Texas complex. Following completion of this project, which is expected as early as the third quarter of 2018, the 5.3 MMBbl cavern will be able to inject/withdraw ethylene at a rate of 2,000 barrels per hour (“BPH”), expandable to 4,000 BPH. There are seven third party ethylene pipelines within two miles of the ethylene well, providing significant connectivity opportunities for the high-capacity system.

Further supporting our ethylene capabilities, we also plan to build a 24-mile, 12-inch diameter ethylene pipeline extending from Mont Belvieu to Bayport, Texas. The new pipeline would have the potential to connect both producing and consuming customers located south of the Houston Ship Channel to our facility in Mont Belvieu. The ethylene pipeline will be routed through our ethane export terminal in Morgan’s Point, which provides us with future flexibility should we develop ethylene export capabilities at our Morgan’s Point marine terminal.

Completion of Azure Acquisition

In March 2017, we announced the execution of a definitive agreement to acquire the midstream business and assets of Azure Midstream Partners, L.P. and its operating subsidiaries (“Azure”). The purchase agreement was the result of Azure’s bankruptcy auction proceedings, which we won with a bid price of \$189 million. The sale was approved by the U.S. Bankruptcy Court for the Southern District of Texas on March 15, 2017.

Azure’s assets, which are located in East Texas and North Louisiana, include over 960 miles of natural gas gathering pipelines, three natural gas processing facilities with an aggregate processing capacity of approximately 210 MMcf/d, and two NGL pipelines with throughput capacities of 10 MBPD each. The Azure assets serve production from the Haynesville Shale and Bossier, Cotton Valley and Travis Peak formations.

The transaction closed in April 2017 after receiving final regulatory approvals and the satisfaction of other closing conditions.

Plans to Build Ninth NGL Fractionator at Our Mont Belvieu, Texas Complex

In March 2017, we resumed construction of our ninth NGL fractionator at our Mont Belvieu, Texas complex in anticipation of increased NGL production from the Permian Basin. The new fractionator, which is expected to be completed by mid-2018, would have a nameplate capacity of 85 MBPD. We have secured the necessary permits and emission credits for this project. Upon completion of this expansion project, we would have approximately 755 MBPD of total NGL fractionation capacity at our Mont Belvieu complex and a combined 1.2 MMBPD of capacity across all of our NGL fractionators.

Plans to Construct Isobutane Dehydrogenation Unit at Mont Belvieu

In January 2017, we announced plans to construct a new isobutane dehydrogenation (“iBDH”) unit at our Mont Belvieu complex that is expected to have the capability to produce 425,000 tons per year of isobutylene. The project, which is underwritten by long-term contracts with investment-grade customers, is expected to be completed in the fourth quarter of 2019. Isobutylene produced by the new plant will provide additional feedstocks for our downstream octane enhancement and petrochemical facilities.

Historically, steam crackers and refineries have been the major source of propane and butane olefins for downstream use. However, with the increased use of light-end feedstocks, specifically ethane, the need for on-purpose olefins production has increased. Like our propane dehydrogenation (“PDH”) facility, the iBDH plant will help meet market demand where traditional supplies have been reduced. The new iBDH plant will increase our production of high purity and low purity isobutylene, which are used as feedstock to manufacture lubricants, rubber products and alkylate for gasoline blendstock, as well as methyl tertiary butyl ether for export.

Results of Operations

Summarized Consolidated Income Statement Data

The following table summarizes the key components of our results of operations for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Revenues	\$ 7,320.4	\$ 5,005.3
Costs and expenses:		
Operating costs and expenses:		
Cost of sales	5,335.7	3,208.3
Other operating costs and expenses	610.4	573.8
Depreciation, amortization and accretion expenses	376.2	358.2
Net losses (gains) attributable to asset sales	(0.3)	4.9
Asset impairment and related charges	11.2	1.7
Total operating costs and expenses	6,333.2	4,146.9
General and administrative costs	50.4	43.9
Total costs and expenses	6,383.6	4,190.8
Equity in income of unconsolidated affiliates	94.8	101.1
Operating income	1,031.6	915.6
Interest expense	(249.3)	(240.6)
Other income (expense), net	(5.3)	3.6
Provision for income taxes	(6.0)	(8.4)
Net income	771.0	670.2
Net income attributable to noncontrolling interests	(10.3)	(9.0)
Net income attributable to limited partners	\$ 760.7	\$ 661.2

Consolidated Revenues

The following table presents each business segment’s contribution to consolidated revenues (net of eliminations) for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
NGL Pipelines & Services:		
Sales of NGLs and related products	\$ 2,887.2	\$ 1,943.5
Midstream services	458.6	460.3
Total	3,345.8	2,403.8
Crude Oil Pipelines & Services:		
Sales of crude oil	1,618.6	1,121.1
Midstream services	188.6	167.5
Total	1,807.2	1,288.6
Natural Gas Pipelines & Services:		
Sales of natural gas	544.0	315.0
Midstream services	217.2	235.0
Total	761.2	550.0
Petrochemical & Refined Products Services:		
Sales of petrochemicals and refined products	1,211.1	553.2
Midstream services	195.1	209.7
Total	1,406.2	762.9
Total consolidated revenues	\$ 7,320.4	\$ 5,005.3

Selected Energy Commodity Price Data

The following table presents selected index prices for natural gas, crude oil and selected NGL and petrochemical products for the periods indicated:

	Natural Gas, \$/MMBtu (1)	Ethane, \$/gallon (2)	Propane, \$/gallon (2)	Normal Butane, \$/gallon (2)	Isobutane, \$/gallon (2)	Natural Gasoline, \$/gallon (2)	Polymer Grade Propylene, \$/pound (3)	Refinery Grade Propylene, \$/pound (3)	WTI Crude Oil, \$/barrel (4)	LLS Crude Oil, \$/barrel (4)
2016 by quarter:										
1st Quarter	\$ 2.09	\$ 0.16	\$ 0.38	\$ 0.53	\$ 0.53	\$ 0.76	\$ 0.31	\$ 0.18	\$ 33.45	\$ 35.11
2nd Quarter	\$ 1.95	\$ 0.20	\$ 0.49	\$ 0.62	\$ 0.63	\$ 0.96	\$ 0.33	\$ 0.19	\$ 45.59	\$ 47.35
3rd Quarter	\$ 2.81	\$ 0.19	\$ 0.47	\$ 0.63	\$ 0.67	\$ 0.98	\$ 0.38	\$ 0.24	\$ 44.94	\$ 46.52
4th Quarter	\$ 2.98	\$ 0.24	\$ 0.58	\$ 0.83	\$ 0.90	\$ 1.08	\$ 0.36	\$ 0.24	\$ 49.29	\$ 50.53
2016 Averages	\$ 2.46	\$ 0.20	\$ 0.48	\$ 0.65	\$ 0.68	\$ 0.94	\$ 0.34	\$ 0.21	\$ 43.32	\$ 44.88
2017 by quarter:										
1st Quarter	\$ 3.32	\$ 0.23	\$ 0.71	\$ 0.98	\$ 0.94	\$ 1.10	\$ 0.47	\$ 0.32	\$ 51.91	\$ 53.52

- (1) Natural gas prices are based on Henry-Hub Inside FERC commercial index prices as reported by Platts, which is a division of McGraw Hill Financial, Inc.
- (2) NGL prices for ethane, propane, normal butane, isobutane and natural gasoline are based on Mont Belvieu Non-TET commercial index prices as reported by Oil Price Information Service.
- (3) Polymer grade propylene prices represent average contract pricing for such product as reported by IHS Chemical, a division of IHS Inc. ("IHS Chemical"). Refinery grade propylene prices represent weighted-average spot prices for such product as reported by IHS Chemical.
- (4) Crude oil prices are based on commercial index prices for WTI as measured on the New York Mercantile Exchange ("NYMEX") and for LLS as reported by Platts.

Fluctuations in our consolidated revenues and cost of sales amounts are explained in large part by changes in energy commodity prices. Energy commodity prices fluctuate for a variety of reasons, including supply and demand imbalances and geopolitical tensions. The weighted-average indicative market price for NGLs was \$0.66 per gallon in the first quarter of 2017 versus \$0.40 per gallon in the first quarter of 2016.

An increase in our consolidated marketing revenues due to higher energy commodity sales prices may not result in an increase in gross operating margin or cash available for distribution, since our consolidated cost of sales amounts would also be higher due to comparable increases in the purchase prices of the underlying energy commodities. The same correlation would be true in the case of lower energy commodity sales prices and purchase costs.

We attempt to mitigate commodity price exposure through our hedging activities as well as through converting keepwhole and similar contracts to fee-based arrangements. See Note 12 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for information regarding our commodity hedging activities.

Consolidated Income Statement Highlights

The following information highlights significant changes in our comparative income statement amounts and the primary drivers of such changes.

Revenues

Total revenues for the first quarter of 2017 increased \$2.32 billion when compared to the first quarter of 2016. Revenues from the marketing of NGLs, natural gas, petrochemicals, refined products and octane additives increased \$1.81 billion quarter-to-quarter primarily due to higher sales prices, which accounted for a \$1.3 billion increase, and higher sales volumes, which accounted for an additional \$506.0 million increase. Revenues from the marketing of crude oil increased a net \$497.5 million quarter-to-quarter primarily due to higher sales prices, which accounted for a \$698.6 million increase, partially offset by a \$201.1 million decrease due to lower sales volumes.

Operating costs and expenses

Total operating costs and expenses for the first quarter of 2017 increased \$2.19 billion when compared to the first quarter of 2016. The cost of sales associated with our marketing of NGLs, natural gas, petrochemicals, refined products and octane additives increased \$1.75 billion quarter-to-quarter primarily due to higher purchase prices, which accounted for a \$1.33 billion increase, and higher sales volumes, which accounted for an additional \$422.8 million increase. The cost of sales associated with our marketing of crude oil increased a net \$382.0 million quarter-to-quarter primarily due to higher purchase prices, which accounted for a \$559.0 million increase, partially offset by a \$177.0 million decrease due to lower sales volumes.

Other operating costs and expenses for the first quarter of 2017 increased a net \$36.6 million when compared to the first quarter of 2016 primarily due to an \$11.4 million increase in power costs, higher employee compensation costs of \$7.8 million and a \$6.0 million increase in maintenance costs.

Depreciation, amortization and accretion expense in operating costs and expenses for the first quarter of 2017 increased \$18.0 million when compared to the first quarter of 2016 primarily due to assets we constructed and placed into service since the first quarter of 2016.

Operating costs and expenses also include \$11.2 million and \$1.7 million of non-cash asset impairment charges for the first quarters of 2017 and 2016, respectively. Our non-cash asset impairment charges for the first quarter of 2017 primarily relate to the write-down of materials held as spare parts.

General and administrative costs

General and administrative costs for the first quarter of 2017 increased \$6.5 million when compared to the first quarter of 2016 primarily due to costs we incurred during the first quarter of 2017 in connection with state sales and use tax audits.

Equity in income of unconsolidated affiliates

Equity income from our unconsolidated affiliates for the first quarter of 2017 decreased a net \$6.3 million when compared to the first quarter of 2016 primarily due to an \$8.9 million decrease in earnings from our investments in crude oil pipelines.

Operating income

Operating income for the first quarter of 2017 increased \$116.0 million when compared to the first quarter of 2016 due to the previously described quarter-to-quarter changes in revenues, operating costs and expenses, general and administrative costs and equity in income of unconsolidated affiliates.

Interest expense

Interest expense for the first quarter of 2017 increased \$8.7 million when compared to the first quarter of 2016. The following table presents the components of our consolidated interest expense for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Interest charged on debt principal outstanding	\$ 272.9	\$ 268.3
Impact of interest rate hedging program, including related amortization	8.7	6.4
Interest costs capitalized in connection with construction projects (1)	(39.6)	(42.5)
Other (2)	7.3	8.4
Total	\$ 249.3	\$ 240.6

(1) We capitalize interest costs incurred on funds used to construct property, plant and equipment while the asset is in its construction phase. Capitalized interest amounts become part of the historical cost of an asset and are charged to earnings (as a component of depreciation expense) on a straight line basis over the estimated useful life of the asset once the asset enters its intended service. When capitalized interest is recorded, it reduces interest expense from what it would be otherwise. Capitalized interest amounts fluctuate based on the timing of when projects are placed into service, our capital spending levels and the interest rates charged on borrowings.

(2) Primarily reflects facility commitment fees charged in connection with our revolving credit facilities and amortization of debt issuance costs.

Interest charged on debt principal outstanding, which is the primary driver of interest expense, increased a net \$4.6 million quarter-to-quarter primarily due to increased debt principal amounts outstanding during the first quarter of 2017, which accounted for a \$9.2 million increase, partially offset by the effect of lower overall interest rates during the first quarter of 2017, which accounted for a \$4.6 million decrease. Our weighted-average debt principal balance for the first quarter of 2017 was \$23.67 billion compared to \$22.96 billion for the first quarter of 2016. In general, our debt principal balances have increased over time due to the partial debt financing of our capital spending program. For a discussion of our consolidated debt obligations and capital spending program, see “Liquidity and Capital Resources” and “Capital Spending” within this Part I, Item 2.

Income taxes

Income taxes primarily reflects our state tax obligations under the Revised Texas Franchise Tax. Our provision for income taxes for the first quarter of 2017 decreased \$2.4 million when compared to the first quarter of 2016.

Business Segment Highlights

We evaluate segment performance based on our financial measure of gross operating margin. Gross operating margin is an important performance measure of the core profitability of our operations and forms the basis of our internal financial reporting. We believe that investors benefit from having access to the same financial measures that our management uses in evaluating segment results.

The following table presents gross operating margin by segment and non-GAAP total gross operating margin for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Gross operating margin by segment:		
NGL Pipelines & Services	\$ 856.0	\$ 783.7
Crude Oil Pipelines & Services	264.6	202.3
Natural Gas Pipelines & Services	170.9	177.7
Petrochemical & Refined Products Services	181.8	154.8
Total segment gross operating margin (1)	1,473.3	1,318.5
Net adjustment for shipper make-up rights	(4.2)	5.8
Total gross operating margin (non-GAAP)	<u>\$ 1,469.1</u>	<u>\$ 1,324.3</u>

(1) Within the context of this table, total segment gross operating margin represents a subtotal and corresponds to measures similarly titled within our business segment disclosures found in Note 9 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Total gross operating margin includes equity in the earnings of unconsolidated affiliates, but is exclusive of other income and expense transactions, income taxes, the cumulative effect of changes in accounting principles and extraordinary charges. Total gross operating margin is presented on a 100% basis before any allocation of earnings to noncontrolling interests.

Gross operating margin by segment for NGL Pipelines & Services and Crude Oil Pipelines & Services reflect adjustments for shipper make-up rights that are included in management’s evaluation of segment results. However, these adjustments are excluded from non-GAAP total gross operating margin.

The GAAP financial measure most directly comparable to total gross operating margin is operating income. For a discussion of operating income and its components, see the previous section titled “Consolidated Income Statement Highlights” within this Item 2. The following table presents a reconciliation of operating income to total gross operating margin for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Operating income (GAAP)	\$ 1,031.6	\$ 915.6
<i>Adjustments to reconcile operating income to total gross operating margin:</i>		
Add depreciation, amortization and accretion expense	376.2	358.2
Add asset impairment and related charges in operating costs and expenses	11.2	1.7
Add net losses and subtract net gains attributable to asset sales	(0.3)	4.9
Add general and administrative costs	50.4	43.9
Total gross operating margin (non-GAAP)	\$ 1,469.1	\$ 1,324.3

Each of our business segments benefits from the supporting role of our marketing activities. The main purpose of our marketing activities is to support the utilization and expansion of assets across our midstream energy asset network by increasing the volumes handled by such assets, which results in additional fee-based earnings for each business segment. In performing these support roles, our marketing activities also seek to participate in supply and demand opportunities as a supplemental source of gross operating margin for the partnership. The financial results of our marketing efforts fluctuate due to changes in volumes handled and overall market conditions, which are influenced by current and forward market prices for the products bought and sold.

The following information highlights significant changes in our quarter-to-quarter segment results (i.e., our gross operating margin by segment amounts) and the primary drivers of such changes. The volume statistics presented for each segment are reported on a net basis, taking into account our ownership interests in certain joint ventures, and reflect the periods in which we owned an interest in such operations. These statistics reflect volumes for newly constructed assets from the dates such assets were placed into service.

NGL Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the NGL Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

	For the Three Months Ended March 31,	
	2017	2016
<i>Segment gross operating margin:</i>		
Natural gas processing and related NGL marketing activities	\$ 277.9	\$ 233.9
NGL pipelines, storage and terminals	454.9	426.7
NGL fractionation	123.2	123.1
Total	\$ 856.0	\$ 783.7
<i>Selected volumetric data:</i>		
NGL pipeline transportation volumes (MBPD)	3,225	2,954
NGL marine terminal volumes (MBPD)	569	456
NGL fractionation volumes (MBPD)	799	836
Equity NGL production (MBPD) (1)	150	145
Fee-based natural gas processing (MMcf/d) (2)	4,489	4,781

(1) Represents the NGL volumes we earn and take title to in connection with our processing activities.

(2) Volumes reported correspond to the revenue streams earned by our gas plants.

Natural gas processing and related NGL marketing activities. Gross operating margin from natural gas processing and related NGL marketing activities for the first quarter of 2017 increased \$44.0 million when compared to the first quarter of 2016. Gross operating margin from our natural gas processing plants increased \$20.7 million quarter-to-quarter primarily due to higher processing margins. Gross operating margin from our NGL marketing activities increased a net \$23.3 million quarter-to-quarter primarily due to higher sales volumes, which accounted for a \$93.0 million increase, partially offset by a \$69.7 million decrease due to lower sales margins. Results from NGL marketing's activities in support of our storage assets (e.g., from contango market positions) increased \$21.8 million quarter-to-quarter. Results from NGL marketing's transportation and plant asset optimization activities and export-oriented strategies increased a combined \$1.5 million quarter-to-quarter.

NGL pipelines, storage and terminals. Gross operating margin from NGL pipelines, storage and terminal assets for the first quarter of 2017 increased \$28.2 million when compared to the first quarter of 2016. Gross operating margin from our storage complex in Mont Belvieu for NGLs and related products increased \$15.8 million quarter-to-quarter primarily due to higher fees, of which several increased in January 2017. Gross operating margin from our Enterprise Hydrocarbons Terminal ("EHT"), Morgan's Point Ethane Export Terminal and Houston Ship Channel Pipeline System increased a combined \$14.2 million quarter-to-quarter primarily due to higher volumes. NGL volumes at EHT increased 54 MBPD quarter-to-quarter, and we loaded 58 MBPD of ethane at Morgan's Point during the first quarter of 2017. Transportation volumes on the Houston Ship Channel Pipeline System increased 147 MBPD quarter-to-quarter. Our Morgan's Point Ethane Export Terminal was placed into commercial operations in September 2016.

On a combined basis, gross operating margin from ATEX and Aegis increased \$8.9 million quarter-to-quarter primarily due to a 31 MBPD increase in transportation volumes. Contracted volume commitments continue to ramp higher through 2018 for ATEX and 2019 for Aegis.

Gross operating margin from our South Texas NGL Pipeline System decreased \$3.7 million quarter-to-quarter primarily due to reduced producer activity in the Eagle Ford Shale.

NGL fractionation. Gross operating margin from NGL fractionation for the first quarter of 2017 increased \$0.1 million when compared to the first quarter of 2016. NGL fractionation volumes decreased 37 MBPD quarter-to-quarter primarily due to declines in South Texas natural gas production, which resulted in lower volumes of mixed NGLs available for fractionation.

Crude Oil Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the Crude Oil Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

	For the Three Months Ended March 31,	
	2017	2016
Segment gross operating margin	\$ 264.6	\$ 202.3
Selected volumetric data:		
Crude oil pipeline transportation volumes (MBPD)	1,356	1,393
Crude oil marine terminal volumes (MBPD)	475	479

Gross operating margin from our Crude Oil Pipelines & Services segment for the first quarter of 2017 increased a net \$62.3 million when compared to the first quarter of 2016. Gross operating margin from crude oil marketing and related trucking activities increased \$56.3 million quarter-to-quarter primarily due to (i) a \$33.0 million quarter-to-quarter benefit attributable to mark-to-market gains related to blending activities of \$19.8 million in the first quarter of 2017 compared to mark-to-market losses from these activities of \$13.2 million in the first quarter of 2016 and (ii) a \$23.3 million increase due to higher crude oil sales margins primarily associated with our firm capacity on the Seaway Pipeline.

Gross operating margin from our West Texas Pipeline System increased \$10.7 million quarter-to-quarter primarily due to higher throughput volumes of 17 MBPD, which accounted for a \$5.7 million increase, and a \$2.1 million decrease in operating costs. The increase in crude oil transportation volumes for West Texas is attributable to increased producer drilling activity across the Permian Basin.

Gross operating margin from our South Texas Crude Oil Pipeline System decreased \$11.1 million quarter-to-quarter primarily due to a 62 MBPD decrease in volumes. The decrease in crude oil transportation volumes in South Texas is attributable to reduced producer drilling activity in the Eagle Ford Shale.

Natural Gas Pipelines & Services

The following table presents segment gross operating margin and selected volumetric data for the Natural Gas Pipelines & Services segment for the periods indicated (dollars in millions, volumes as noted):

	For the Three Months Ended March 31,	
	2017	2016
Segment gross operating margin	\$ 170.9	\$ 177.7
Selected volumetric data:		
Natural gas pipeline transportation volumes (BBtus/d)	11,429	11,895

Gross operating margin from our Natural Gas Pipelines & Services segment for the first quarter of 2017 decreased a net \$6.8 million when compared to the first quarter of 2016.

Gross operating margin from our Texas Intrastate System decreased \$10.8 million quarter-to-quarter primarily due to lower revenues attributable to decreased producer drilling activity in the Eagle Ford and Barnett Shales. Transportation volumes on our Texas Intrastate System decreased 633 BBtus/d quarter-to-quarter. Gross operating margin from our Jonah Gathering System decreased \$7.1 million quarter-to-quarter primarily due to lower gathering volumes of 148 BBtus/d, which accounted for a \$3.8 million decrease, lower gathering fees, which accounted for an additional \$1.2 million decrease, and a \$2.6 million increase in operating costs. Gross operating margin from our Permian Basin Gathering System increased \$8.3 million quarter-to-quarter primarily due to higher gathering volumes of 269 BBtus/d. The increase in natural gas gathering volumes for this system is attributable to increased producer drilling activity across the Permian Basin.

Gross operating margin from our natural gas marketing activities increased \$4.9 million quarter-to-quarter.

Petrochemical & Refined Products Services

The following table presents segment gross operating margin and selected volumetric data for the Petrochemical & Refined Products Services segment for the periods indicated (dollars in millions, volumes as noted):

	For the Three Months Ended March 31,	
	2017	2016
Segment gross operating margin:		
Propylene fractionation and related activities	\$ 68.6	\$ 52.1
Butane isomerization and related operations	10.9	16.1
Octane enhancement and related plant operations	18.9	(10.2)
Refined products pipelines and related activities	76.7	87.0
Marine transportation and other	6.7	9.8
Total	<u>\$ 181.8</u>	<u>\$ 154.8</u>
Selected volumetric data:		
Propylene fractionation volumes (MBPD)	80	69
Butane isomerization volumes (MBPD)	92	110
Standalone DIB processing volumes (MBPD)	83	96
Octane additive and related plant production volumes (MBPD)	20	10
Pipeline transportation volumes, primarily refined products & petrochemicals (MBPD)	827	852
Refined products and petrochemical marine terminal volumes (MBPD)	399	347

Propylene fractionation and related activities. Gross operating margin from propylene fractionation and related marketing activities for the first quarter of 2017 increased a net \$16.5 million when compared to the first quarter of 2016. Gross operating margin from our Mont Belvieu propylene fractionation plants increased a net \$25.8 million quarter-to-quarter. When compared to the first quarter of 2016, these plants benefitted in the first quarter of 2017 from an \$18.1 million increase in propylene sales margins and \$10.1 million of higher propylene fractionation and other fee revenues, along with higher propylene fractionation volumes of 11 MBPD, which accounted for \$2.5 million of the overall increase. Partially offsetting these benefits was a \$4.9 million decrease in gross operating margin due to higher operating costs.

Gross operating margin for this business for the first quarter of 2017 includes \$7.9 million of pre-commissioning expenses related to our PDH facility. We expect this facility to commence operations during the third quarter of 2017.

Isomerization and related operations. Gross operating margin from butane isomerization and deisobutanizer (“DIB”) operations for the first quarter of 2017 decreased \$5.2 million when compared to the first quarter of 2016. This quarter-to-quarter decrease in gross operating margin is primarily due to lower butane isomerization and standalone DIB processing volumes of 18 MBPD and 13 MBPD, respectively.

Octane enhancement and related operations. Gross operating margin from our octane enhancement facility and high purity isobutylene (“HPIB”) plant for the first quarter of 2017 increased \$29.1 million when compared to the first quarter of 2016. This quarter-to-quarter increase in gross operating margin is primarily due to higher production volumes, which increased a combined 10 MBPD quarter-to-quarter. Historically, our octane enhancement plant experienced downtime annually (typically in the first quarter of each year) for major maintenance activities. During 2016, we completed modifications to our octane enhancement plant to mitigate the need for such maintenance. We now expect downtime for major maintenance activities at our octane enhancement plant once every three years.

Refined products pipelines and related activities. Gross operating margin from refined products pipelines and related marketing activities for the first quarter of 2017 decreased \$10.3 million when compared to the first quarter of 2016. Gross operating margin from our TE Products Pipeline and related refined products terminals decreased \$8.9 million quarter-to-quarter primarily due to lower transportation volumes, which accounted for a \$6.1 million decrease, and lower transportation fees, which accounted for an additional \$5.1 million decrease. NGL and interstate refined products pipeline transportation volumes on our TE Products Pipeline decreased quarter-to-quarter by 6 MBPD and 23 MBPD, respectively. The quarter-to-quarter decrease in transportation volumes was due in part to warmer than average weather during the first quarter of 2017.

Liquidity and Capital Resources

Based on current market conditions (as of the filing date of this quarterly report), we believe we will have sufficient liquidity, cash flow from operations and access to capital markets to fund our capital expenditures and working capital needs for the reasonably foreseeable future. At March 31, 2017, we had \$4.06 billion of consolidated liquidity, which was comprised of \$4.0 billion of available borrowing capacity under EPO’s revolving credit facilities and \$62.4 million of unrestricted cash on hand.

We expect to issue additional equity and debt securities to assist us in meeting our future funding and liquidity requirements, including those related to capital spending.

Consolidated Debt

The following table presents scheduled maturities of our consolidated debt obligations outstanding at March 31, 2017 for the years indicated (dollars in millions):

	Scheduled Maturities of Debt						
	Total	Remainder of 2017	2018	2019	2020	2021	Thereafter
Commercial Paper Notes	\$ 1,500.4	\$ 1,500.4	\$ --	\$ --	\$ --	\$ --	\$ --
Senior Notes	20,650.0	800.0	1,100.0	1,500.0	1,500.0	575.0	15,175.0
Junior Subordinated Notes	1,474.4	--	--	--	--	--	1,474.4
Total	<u>\$ 23,624.8</u>	<u>\$ 2,300.4</u>	<u>\$ 1,100.0</u>	<u>\$ 1,500.0</u>	<u>\$ 1,500.0</u>	<u>\$ 575.0</u>	<u>\$ 16,649.4</u>

For additional information regarding our debt agreements, see Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Issuance of Common Units

The following table summarizes the issuance of common units in connection with our at-the-market (“ATM”) program, distribution reinvestment plan (“DRIP”) and employee unit purchase plan (“EUPP”) for the quarterly period indicated (dollars in millions, number of units issued as shown):

	Number of Common Units Issued	Net Cash Proceeds Received
Three months ended March 31, 2017:		
Common units issued in connection with ATM program	12,865,371	\$ 356.0
Common units issued in connection with DRIP and EUPP	3,440,559	92.8
Total	<u>16,305,930</u>	<u>\$ 448.8</u>

ATM Program

We have a registration statement on file with the SEC covering the issuance of up to \$1.89 billion of our common units in amounts, at prices and on terms to be determined by market conditions and other factors at the time of such offerings in connection with our ATM program. After taking into account the aggregate sales price of common units sold under the ATM program through March 31, 2017, we have the capacity to issue additional common units under the ATM program up to an aggregate sales price of \$1.08 billion.

DRIP and EUPP

We also have registration statements on file with the SEC collectively authorizing the issuance of up to 240,000,000 of our common units in connection with our DRIP. After taking into account the number of common units issued under the DRIP through March 31, 2017, we have the capacity to issue an additional 95,932,697 common units under this plan.

In addition to the DRIP, we have registration statements on file with the SEC authorizing the issuance of up to 8,000,000 of our common units in connection with our EUPP. After taking into account the number of common units issued under the EUPP through March 31, 2017, we have the capacity to issue an additional 6,150,714 common units under this plan.

Use of Proceeds

The net cash proceeds we received from the issuance of common units during the first quarter of 2017 were used to temporarily reduce amounts outstanding under EPO’s commercial paper program and for general company purposes.

For additional information regarding our issuance of common units and related registration statements, see Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Restricted Cash

Restricted cash represents amounts held in segregated bank accounts by our clearing brokers as margin in support of our commodity derivative instruments portfolio and related physical purchases and sales of natural gas, NGLs, crude oil and refined products. Additional cash may be restricted to maintain our commodity derivative instruments portfolio as prices fluctuate or margin requirements change.

At March 31, 2017 and December 31, 2016, our restricted cash amounts were \$44.7 million and \$354.5 million, respectively. The balance of restricted cash decreased since December 31, 2016 primarily due to the settlement of derivative instruments related to contango positions during the first quarter of 2017. For information regarding our derivative instruments and hedging activities, see Note 12 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Credit Ratings

As of May 1, 2017, the investment-grade credit ratings of EPO's long-term senior unsecured debt securities were BBB+ from Standard and Poor's and Baa1 from Moody's. In addition, the credit ratings of EPO's short-term senior unsecured debt securities were A-2 from Standard and Poor's and P-2 from Moody's. Fitch Ratings issued non-solicited ratings of BBB+ and F-2 for EPO's long-term senior unsecured debt securities and short-term senior unsecured debt securities, respectively.

EPO's credit ratings reflect only the view of a rating agency and should not be interpreted as a recommendation to buy, sell or hold any of our securities. A credit rating can be revised upward or downward or withdrawn at any time by a rating agency, if it determines that circumstances warrant such a change. A credit rating from one rating agency should be evaluated independently of credit ratings from other rating agencies.

Cash Flows from Operating, Investing and Financing Activities

The following table summarizes our consolidated cash flows from operating, investing and financing activities for the periods indicated (dollars in millions). For additional information regarding our cash flow amounts, please refer to the Unaudited Condensed Statements of Consolidated Cash Flows included under Part I, Item 1 of this quarterly report.

	For the Three Months Ended March 31,	
	2017	2016
Net cash flows provided by operating activities	\$ 875.6	\$ 899.7
Cash used in investing activities	134.2	1,163.9
Cash provided by (used in) financing activities	(742.1)	405.8

Net cash flows provided by operating activities are largely dependent on earnings from our consolidated business activities. We operate in the midstream energy industry, which includes gathering, transporting, processing, fractionating and storing natural gas, NGLs, crude oil, petrochemical and refined products. As such, changes in the prices of hydrocarbon products and in the relative price levels among hydrocarbon products could have a material adverse effect on our financial position, results of operations and cash flows. Changes in prices may impact demand for hydrocarbon products, which in turn may impact production, demand and the volumes of products for which we provide services. In addition, decreases in demand may be caused by other factors, including prevailing economic conditions, reduced demand by consumers for the end products made with hydrocarbon products, increased competition, adverse weather conditions and government regulations affecting prices and production levels. We may also incur credit and price risk to the extent customers do not fulfill their obligations to us in connection with our marketing of natural gas, NGLs, propylene, refined products and/or crude oil and long-term take-or-pay agreements. For a more complete discussion of these and other risk factors pertinent to our business, see "Risk Factors" under Part I, Item 1A of our 2016 Form 10-K.

Comparison of Three Months Ended March 31, 2017 with Three Months Ended March 31, 2016

The following information highlights significant quarter-to-quarter fluctuations in our consolidated cash flow amounts:

Operating activities. Net cash flows provided by operating activities for the first quarter of 2017 decreased \$24.1 million when compared to the first quarter of 2016. The decrease in cash provided by operating activities was primarily due to:

- § a \$102.4 million quarter-to-quarter decrease in cash primarily due to the timing of cash receipts and payments related to operations; and
- § a \$16.2 million quarter-to-quarter decrease in cash distributions received on earnings from unconsolidated affiliates; partially offset by
- § a \$94.5 million increase in cash attributable to higher partnership income in the first quarter of 2017 compared to the first quarter of 2016 (after adjusting our \$100.8 million quarter-to-quarter increase in net income for changes in the non-cash items identified on our Unaudited Condensed Statements of Consolidated Cash Flows).

For information regarding significant quarter-to-quarter changes in our consolidated net income and underlying segment results, see “Results of Operations” within this Part I, Item 2.

Investing activities. Cash used for investing activities in the first quarter of 2017 decreased \$1.03 billion when compared to the first quarter of 2016 primarily due to:

- § a \$564.6 million quarter-to-quarter decrease in capital spending for consolidated property, plant and equipment, net of contributions in aid of construction costs;
- § a \$430.8 million quarter-to-quarter decrease in restricted cash requirements; and
- § a \$56.7 million quarter-to-quarter decrease in investments in our unconsolidated affiliates; partially offset by
- § \$16.0 million of cash paid in the first quarter of 2017 as a deposit for the acquisition of Azure, which was completed in April 2017; and
- § an \$11.4 million quarter-to-quarter decrease in proceeds from asset sales.

Financing activities. Cash used in financing activities for the first quarter of 2017 was \$742.1 million compared to cash provided by financing activities of \$405.8 million for the first quarter of 2016. The \$1.15 billion quarter-to-quarter change in cash flow from financing activities was primarily due to:

- § a \$1.23 billion decrease in net cash provided by EPO’s commercial paper program. We used a net \$281.3 million of cash during the first quarter of 2017 to repay short-term notes issued under this program compared to net cash inflows of \$953.3 million in the first quarter of 2016 related to the issuance of short-term notes under this program;
- § a \$562.7 million quarter-to-quarter decrease in net cash proceeds from the issuance of common units. We issued an aggregate 16,305,930 common units, which generated \$448.8 million of net cash proceeds, in connection with our ATM program, DRIP and EUPP during the first quarter of 2017. This compares to an aggregate 42,678,153 common units we issued in connection with these programs and plans during the first quarter of 2016, which collectively generated \$1.01 billion of net cash proceeds; and
- § an \$80.7 million quarter-to-quarter increase in cash distributions paid to limited partners during the first quarter of 2017 when compared to the first quarter of 2016. The increase in cash distributions is due to increases in both the number of distribution-bearing common units outstanding and the quarterly cash distribution rates per unit; partially offset by

§ the repayment of \$750.0 million in principal amount by EPO of its senior notes during the first quarter of 2016 compared to no such repayments during the first quarter of 2017.

Cash Distributions to Limited Partners

Our partnership agreement requires us to make quarterly distributions to our unitholders of all available cash, after any cash reserves established by Enterprise GP in its sole discretion. Cash reserves include those for the proper conduct of our business including, for example, those for capital expenditures, debt service, working capital, operating expenses, commitments and contingencies and other significant amounts. The retention of cash by the partnership allows us to reinvest in our growth and reduce our future reliance on the equity and debt capital markets.

We measure available cash by reference to “distributable cash flow,” which is a non-GAAP liquidity measure. Distributable cash flow is an important non-GAAP financial measure for our limited partners since it serves as an indicator of our success in providing a cash return on investment. Specifically, this financial measure indicates to investors whether or not we are generating cash flows at a level that can sustain or support an increase in our quarterly cash distributions. Distributable cash flow is also a quantitative standard used by the investment community with respect to publicly traded partnerships because the value of a partnership unit is, in part, measured by its yield, which is based on the amount of cash distributions a partnership can pay to a unitholder. Our management compares the distributable cash flow we generate to the cash distributions we expect to pay our partners. Using this metric, management computes our distribution coverage ratio.

Based on the level of available cash, management proposes a quarterly cash distribution rate to the Board of Enterprise GP, which has sole authority in approving such matters. Unlike several other master limited partnerships, our general partner has a non-economic ownership interest in us and is not entitled to receive any cash distributions from us based on incentive distribution rights or other equity interests.

Our use of distributable cash flow for the limited purposes described above and in this report is not a substitute for net cash flows provided by operating activities, which is the most comparable GAAP measure. For a discussion of net cash flows provided by operating activities, see the previous section titled “Cash Flows from Operating, Investing and Financing Activities” within this Item 2.

The following table summarizes our calculation of distributable cash flow for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Net income attributable to limited partners (1)	\$ 760.7	\$ 661.2
<i>Adjustments to GAAP net income attributable to limited partners to derive non-GAAP distributable cash flow:</i>		
Add depreciation, amortization and accretion expenses	402.3	382.1
Add non-cash asset impairment and related charges	11.2	1.7
Add net losses or net subtract gains attributable to asset sales	(0.3)	4.9
Add cash proceeds from asset sales	2.0	13.4
Add or subtract changes in fair market value of derivative instruments	(20.3)	20.1
Add cash distributions received from unconsolidated affiliates (2)	102.5	115.8
Subtract equity in income of unconsolidated affiliates (2)	(94.8)	(101.1)
Subtract sustaining capital expenditures (3)	(48.0)	(59.3)
Add deferred income tax expense	0.1	4.1
Other, net	13.2	10.7
Distributable cash flow	\$ 1,128.6	\$ 1,053.6
Total cash distributions paid to limited partners with respect to period	<u>\$ 892.8</u>	<u>\$ 825.4</u>
Cash distribution per unit declared by Enterprise GP with respect to period (4)	<u>\$ 0.4150</u>	<u>\$ 0.3950</u>
Total distributable cash flow retained by partnership with respect to period (5)	<u>\$ 235.8</u>	<u>\$ 228.2</u>
Distribution coverage ratio (6)	<u>1.3x</u>	<u>1.3x</u>

- (1) For a discussion of significant changes in our comparative income statement amounts underlying net income attributable to limited partners, along with the primary drivers of such changes, see "Consolidated Income Statements Highlights" within this Part I, Item 2.
- (2) Reflects both distributions received on earnings from unconsolidated affiliates and those attributable to a return of capital from unconsolidated affiliates. For information regarding our unconsolidated affiliates, see Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.
- (3) Sustaining capital expenditures include cash payments and accruals applicable to the period.
- (4) See Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for additional information regarding our quarterly cash distributions declared with respect to the periods presented.
- (5) At the sole discretion of Enterprise GP, cash retained by the partnership with respect to each of these periods was primarily reinvested in our growth capital spending program, which reduced our reliance on the equity and debt capital markets to fund such major expenditures.
- (6) Distribution coverage ratio is determined by dividing distributable cash flow by total cash distributions paid to limited partners and in connection with distribution equivalent rights with respect to the period.

The following table presents a reconciliation of net cash flows provided by operating activities to non-GAAP distributable cash flow for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Net cash flows provided by operating activities	\$ 875.6	\$ 899.7
<i>Adjustments to reconcile net cash flows provided by operating activities to distributable cash flow:</i>		
Subtract sustaining capital expenditures	(48.0)	(59.3)
Add cash proceeds from asset sales and insurance recoveries	2.0	13.4
Net effect of changes in operating accounts	288.8	186.4
Other, net	10.2	13.4
Distributable cash flow	\$ 1,128.6	\$ 1,053.6

Capital Spending

An important part of our business strategy involves expansion through growth capital projects, business combinations and investments in joint ventures. We believe that we are well positioned to continue to expand our network of assets through the construction of new facilities and to capitalize on expected increases in natural gas, NGL and crude oil production resulting from development activities in the Rocky Mountains, Mid-Continent, Northeast and U.S. Gulf Coast regions, including the Niobrara, Barnett, Eagle Ford, Permian, Haynesville, Marcellus and Utica Shale plays. Although our focus in recent years has been on expansion through growth capital projects, management continues to analyze potential business combinations, asset acquisitions, joint ventures and similar transactions with businesses that operate in complementary markets or geographic regions. In light of current business conditions, we expect that these opportunities will increase.

We began commercial service on approximately \$100 million of growth capital projects during the three months ended March 31, 2017 including expansions related to our propylene pipeline system and Beaumont refined products terminal. In addition, we have approximately \$8.4 billion of growth capital projects scheduled to be completed by 2020 including our PDH and iBDH facilities, the Midland-to-Sealy segment of our Midland-to-ECHO Pipeline System, the Shin Oak NGL pipeline, our ninth NGL fractionator in Mont Belvieu and completion of joint venture-owned dock infrastructure in Corpus Christi designed to accommodate crude oil volumes.

For 2017, we currently expect to invest in the range of \$2.7 billion to \$3.0 billion for growth capital projects, including \$189 million for the Azure acquisition, and approximately \$250 million for sustaining capital expenditures. Our forecast of capital spending for 2017 is based on our announced strategic operating and growth plans (through the filing date of this quarterly report), which are dependent upon our ability to generate the required funds from either operating cash flows or other means, including borrowings under debt agreements, the issuance of additional equity and debt securities, and potential divestitures. We may revise our forecast of capital spending due to factors beyond our control, such as adverse economic conditions, weather related issues and changes in supplier prices. Furthermore, our forecast of capital spending may change as a result of decisions made by management at a later date, which may include unforeseen acquisition opportunities.

Our success in raising capital, including the formation of joint ventures to share costs and risks, continues to be a significant factor in determining how much capital we can invest. We believe our access to capital resources is sufficient to meet the demands of our current and future growth needs and, although we expect to make the forecast capital expenditures noted above, we may adjust the timing and amounts of projected expenditures in response to changes in capital market conditions.

The following table summarizes our capital spending for the periods indicated (dollars in millions):

	For the Three Months Ended March 31,	
	2017	2016
Capital spending for property, plant and equipment, net: (1)		
Growth capital projects (2)	\$ 379.6	\$ 920.6
Sustaining capital projects (3)	50.8	74.4
Investments in unconsolidated affiliates	13.7	70.4
Cash used for deposit in connection with Azure acquisition	16.0	--
Total capital spending	\$ 460.1	\$ 1,065.4

(1) On certain of our capital projects, third parties are obligated to reimburse us for all or a portion of project expenditures. The majority of such arrangements are associated with pipeline construction projects and production well tie-ins. Contributions in aid of construction costs were \$15.6 million and \$12.2 million for the three months ended March 31, 2017 and 2016, respectively. Growth and sustaining capital amounts presented in the table above are presented on a cash basis and net of related contributions in aid of construction costs.

(2) Growth capital projects either (a) result in new sources of cash flow due to enhancements of or additions to existing assets (e.g., additional revenue streams, cost savings resulting from debottlenecking of a facility, etc.) or (b) expand our asset base through construction of new facilities that will generate additional revenue streams and cash flows.

(3) Sustaining capital expenditures are capital expenditures (as defined by GAAP) resulting from improvements to existing assets. Such expenditures serve to maintain existing operations but do not generate additional revenues or result in significant cost savings.

Fluctuations in our spending for growth capital projects and investments in unconsolidated affiliates are explained in large part by increases or decreases in spending on major expansion projects. Our most significant growth capital expenditures for the three months ended March 31, 2017 involved projects at our Mont Belvieu complex. Fluctuations in spending for sustaining capital projects are explained in large part by the timing and cost of pipeline integrity and similar projects.

Comparison of Three Months Ended March 31, 2017 with Three Months Ended March 31, 2016

In total, capital spending for property, plant and equipment decreased \$564.6 million quarter-to-quarter primarily due to lower growth capital spending during the first quarter of 2017.

Growth capital spending at our Mont Belvieu complex decreased \$185.0 million quarter-to-quarter primarily due to lower spending in connection with our PDH facility as it nears completion. We expect the PDH facility, which is currently in the precommissioning stage, to begin commercial operations during the third quarter of 2017.

Growth capital spending for crude oil assets at our EHT, Beaumont Marine West and ECHO terminals decreased a combined \$104.9 million quarter-to-quarter primarily due to the completion of new storage tanks and related assets at these facilities during 2016. Growth capital spending attributable to our Midland-to-ECHO Pipeline System decreased \$42.6 million quarter-to-quarter. The Midland-to-ECHO Pipeline System is expected to be completed and placed into service at initial rates of 300 MBPD in the fourth quarter of 2017 once the Midland-to-Sealy segment is constructed.

Growth capital spending at EHT for LPG export expansion projects and at our Morgan's Point Ethane Export Terminal decreased a combined \$76.1 million quarter-to-quarter. In September 2016, we placed our Morgan's Point Ethane Export Terminal into service. Likewise, growth capital spending on our ethane header system between Corpus Christi, Texas and the Mississippi River in Louisiana decreased \$55.3 million quarter-to-quarter. Lastly, growth capital spending at our natural gas processing plants in Louisiana and Mississippi decreased \$34.6 million quarter-to-quarter.

Investments in unconsolidated affiliates decreased \$56.7 million quarter-to-quarter primarily due to reduced spending on joint venture-owned crude oil pipelines and dock infrastructure, which accounted for a \$33.5 million decrease, and completion of our Waha natural gas processing plant in August 2016, which accounted for an additional \$19.3 million decrease.

Critical Accounting Policies and Estimates

A discussion of our critical accounting policies and estimates is included in our 2016 Form 10-K. The following types of estimates, in our opinion, are subjective in nature, require the exercise of professional judgment and involve complex analysis:

- § depreciation methods and estimated useful lives of property, plant and equipment;
- § measuring recoverability of long-lived assets and equity method investments;
- § amortization methods and estimated useful lives of qualifying intangible assets;
- § methods we employ to measure the fair value of goodwill; and
- § revenue recognition policies and the use of estimates for revenue and expenses.

When used to prepare our Unaudited Condensed Consolidated Financial Statements, the foregoing types of estimates are based on our current knowledge and understanding of the underlying facts and circumstances. Such estimates may be revised as a result of changes in the underlying facts and circumstances. Subsequent changes in these estimates may have a significant impact on our consolidated financial position, results of operations and cash flows.

Other Items

Contractual Obligations

Our consolidated principal debt obligations at March 31, 2017 were approximately \$23.62 billion compared to \$23.90 billion at December 31, 2016. For information regarding the scheduled maturities of such debt, see “Liquidity and Capital Resources – Consolidated Debt” within this Part I, Item 2. See Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements under Part I, Item 1 of this quarterly report for additional information regarding our consolidated debt obligations.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably expected to have a material current or future effect on our financial position, results of operations and cash flows.

Related Party Transactions

For information regarding our related party transactions, see Note 13 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

General

In the normal course of our business operations, we are exposed to certain risks, including changes in interest rates and commodity prices. In order to manage risks associated with assets, liabilities and certain anticipated future transactions, we use derivative instruments such as futures, forward contracts, swaps, options and other instruments with similar characteristics. Substantially all of our derivatives are used for non-trading activities.

Our exposures to market risk have not changed materially since those reported under Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” included in our 2016 Form 10-K.

We assess the risk associated with each of our derivative instrument portfolios using a sensitivity analysis model. This approach measures the change in economic value (or fair value) of the derivative instrument portfolio based on a hypothetical 10% change in the underlying interest rates or quoted market prices on a particular day. In addition to these variables, the economic value of each portfolio is influenced by changes in the notional amounts of the instruments outstanding and the discount rates used to determine the present values. The sensitivity analysis approach does not reflect the impact that the same hypothetical price movement would have on the hedged exposures to which they relate. Therefore, the impact on the economic value of a derivative instrument resulting from a change in interest rates or quoted market prices (as applicable) would normally be offset by a corresponding gain or loss on the hedged debt instrument, inventory value or forecasted transaction assuming:

- § the derivative instrument functions effectively as a hedge of the underlying risk;
- § the derivative instrument is not closed out in advance of its expected term; and
- § the hedged forecasted transaction occurs within the expected time period.

In addition, the fair value amounts presented in the sensitivity analysis tables below do not reflect any rule changes made by certain exchanges (e.g., the Chicago Mercantile Exchange) that may impact the financial statement or disclosure presentation for a derivative instrument since such rule changes have no impact on the underlying contractual terms of the derivative instrument itself, including the timing or price of the ultimate settlement.

We routinely review the effectiveness of our derivative instrument portfolios in light of current market conditions. Accordingly, the nature and volume of our derivative instruments may change depending on the specific exposure being managed.

See Note 12 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report for additional information regarding our derivative instruments and hedging activities.

Commodity Hedging Activities

The prices of natural gas, NGLs, crude oil, petrochemicals and refined products are subject to fluctuations in response to changes in supply and demand, market conditions and a variety of additional factors that are beyond our control. In order to manage such price risks, we enter into commodity derivative instruments such as physical forward contracts, futures contracts, fixed-for-float swaps, basis swaps and option contracts. The following table summarizes our portfolio of commodity derivative instruments outstanding at March 31, 2017 (volume measures as noted):

Derivative Purpose	Volume (1)		Accounting Treatment
	Current (2)	Long-Term (2)	
Derivatives designated as hedging instruments:			
Natural gas processing:			
Forecasted natural gas purchases for plant thermal reduction (Bcf)	14.9	n/a	Cash flow hedge
Forecasted sales of NGLs (MMBbls)	3.5	n/a	Cash flow hedge
Octane enhancement:			
Forecasted purchases of NGLs (MMBbls)	0.5	n/a	Cash flow hedge
Forecasted sales of octane enhancement products (MMBbls)	0.8	n/a	Cash flow hedge
Natural gas marketing:			
Forecasted purchases of natural gas for fuel (Bcf)	4.5	n/a	Cash flow hedge
Natural gas storage inventory management activities (Bcf)	4.5	n/a	Fair value hedge
NGL marketing:			
Forecasted purchases of NGLs and related hydrocarbon products (MMBbls)	82.3	n/a	Cash flow hedge
Forecasted sales of NGLs and related hydrocarbon products (MMBbls)	93.4	n/a	Cash flow hedge
Refined products marketing:			
Forecasted purchases of refined products (MMBbls)	0.2	n/a	Cash flow hedge
Forecasted sales of refined products (MMBbls)	0.4	n/a	Cash flow hedge
Refined products inventory management activities (MMBbls)	5.4	n/a	Fair value hedge
Crude oil marketing:			
Forecasted purchases of crude oil (MMBbls)	12.5	n/a	Cash flow hedge
Forecasted sales of crude oil (MMBbls)	21.2	n/a	Cash flow hedge
Derivatives not designated as hedging instruments:			
Natural gas risk management activities (Bcf) (3,4)	188.6	21.7	Mark-to-market
NGL risk management activities (MMBbls) (4)	16.1	n/a	Mark-to-market
Refined products risk management activities (MMBbls) (4)	0.2	n/a	Mark-to-market
Crude oil risk management activities (MMBbls) (4)	25.2	10.4	Mark-to-market

- (1) Volume for derivatives designated as hedging instruments reflects the total amount of volumes hedged whereas volume for derivatives not designated as hedging instruments reflects the absolute value of derivative notional volumes.
- (2) The maximum term for derivatives designated as cash flow hedges, derivatives designated as fair value hedges and derivatives not designated as hedging instruments is December 2017, September 2017 and March 2020, respectively.
- (3) Current and long-term volumes include 55.3 Bcf and 10.5 Bcf, respectively, of physical derivative instruments that are predominantly priced at a marked-based index plus a premium or minus a discount related to location differences.
- (4) Reflects the use of derivative instruments to manage risks associated with transportation, processing and storage assets.

At March 31, 2017, our predominant commodity hedging strategies consisted of (i) hedging anticipated future purchases and sales of commodity products associated with transportation, storage and blending activities, (ii) hedging natural gas processing margins and (iii) hedging the fair value of commodity products held in inventory.

§ The objective of our anticipated future commodity purchases and sales hedging program is to hedge the margins of certain transportation, storage, blending and operational activities by locking in purchase and sale prices through the use of derivative instruments and related contracts.

§ The objective of our natural gas processing hedging program is to hedge an amount of earnings associated with these activities. We achieve this objective by executing fixed-price sales for a portion of our expected equity NGL production using derivative instruments and related contracts. For certain natural gas processing contracts, the hedging of expected equity NGL production also involves the purchase of natural gas for plant thermal reduction, which is hedged using derivative instruments and related contracts.

§ The objective of our inventory hedging program is to hedge the fair value of commodity products currently held in inventory by locking in the sales price of the inventory through the use of derivative instruments and related contracts.

The following table shows the effect of hypothetical price movements (a sensitivity analysis) on the estimated economic value of our natural gas marketing portfolio at the dates indicated (dollars in millions):

Scenario	Resulting Classification	Portfolio Fair Value at		
		December 31, 2016	March 31, 2017	April 17, 2017
Fair value assuming no change in underlying commodity prices	Liability	\$ (5.3)	\$ (4.5)	\$ (4.1)
Fair value assuming 10% increase in underlying commodity prices	Liability	(9.7)	(7.9)	(7.5)
Fair value assuming 10% decrease in underlying commodity prices	Liability	(0.9)	(1.2)	(0.6)

The following table shows the effect of hypothetical price movements (a sensitivity analysis) on the estimated economic value of our NGL marketing, refined products marketing and octane enhancement portfolios at the dates indicated (dollars in millions):

Scenario	Resulting Classification	Portfolio Fair Value at		
		December 31, 2016	March 31, 2017	April 17, 2017
Fair value assuming no change in underlying commodity prices	Asset (Liability)	\$ (150.3)	\$ 30.2	\$ 25.3
Fair value assuming 10% increase in underlying commodity prices	Liability	(227.7)	(3.0)	(8.2)
Fair value assuming 10% decrease in underlying commodity prices	Asset (Liability)	(73.0)	63.5	58.7

The following table shows the effect of hypothetical price movements (a sensitivity analysis) on the estimated economic value of our crude oil marketing portfolio at the dates indicated (dollars in millions):

Scenario	Resulting Classification	Portfolio Fair Value at		
		December 31, 2016	March 31, 2017	April 17, 2017
Fair value assuming no change in underlying commodity prices	Liability	\$ (42.4)	\$ (1.4)	\$ (18.3)
Fair value assuming 10% increase in underlying commodity prices	Liability	(80.0)	(46.7)	(63.8)
Fair value assuming 10% decrease in underlying commodity prices	Asset (Liability)	(4.7)	43.9	27.2

Interest Rate Hedging Activities

We may utilize interest rate swaps, forward starting swaps and similar derivative instruments to manage our exposure to changes in interest rates charged on borrowings under certain consolidated debt agreements. This strategy may be used in controlling our overall cost of capital associated with such borrowings. The composition of our derivative instrument portfolios may change depending on our hedging requirements.

With respect to the tabular data below, each portfolio's estimated economic value at a given date is based on a number of factors, including the number and types of derivatives outstanding at that date, the notional value of the swaps and associated interest rates.

Interest rate swaps exchange the stated interest rate paid on a notional amount of existing debt for the fixed or floating interest rate stipulated in the derivative instrument. The following table summarizes our portfolio of interest rate swaps at March 31, 2017 (dollars in millions):

Hedged Transaction	Number and Type of Derivatives Outstanding	Notional Amount	Period of Hedge	Rate Swap	Accounting Treatment
Senior Notes OO	10 fixed-to-floating swaps	\$ 750.0	5/2015 to 5/2018	1.65% to 1.51%	Fair value hedge

The following table shows the effect of hypothetical price movements (a sensitivity analysis) on the estimated economic value of our interest rate swap portfolio at the dates indicated (dollars in millions):

Scenario	Resulting Classification	Interest Rate Swap Portfolio Fair Value at		
		December 31, 2016	March 31, 2017	April 17, 2017
Fair value assuming no change in underlying interest rates	Liability	\$ (0.8)	\$ (1.3)	\$ (0.8)
Fair value assuming 10% increase in underlying interest rates	Liability	(2.0)	(2.3)	(1.8)
Fair value assuming 10% decrease in underlying interest rates	Asset (Liability)	0.4	(0.2)	0.3

The following table summarizes our portfolio of 30-year forward starting swaps outstanding at March 31, 2017. Forward starting swaps hedge the expected underlying benchmark interest rates related to future issuances of debt.

Hedged Transaction	Number and Type of Derivatives Outstanding	Notional Amount	Expected Settlement Date	Average Rate Locked	Accounting Treatment
Future long-term debt offering	4 forward starting swaps	\$ 275.0	5/2018	2.02%	Cash flow hedge

The following table shows the effect of hypothetical price movements (a sensitivity analysis) on the estimated economic value of our forward starting swap portfolio at the dates indicated (dollars in millions):

Scenario	Resulting Classification	Forward Starting Swap Portfolio Fair Value at		
		December 31, 2016	March 31, 2017	April 17, 2017
Fair value assuming no change in underlying interest rates	Asset	\$ 36.2	\$ 38.6	\$ 31.0
Fair value assuming 10% increase in underlying interest rates	Asset	49.3	51.7	44.0
Fair value assuming 10% decrease in underlying interest rates	Asset	22.1	24.4	17.1

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, our management carried out an evaluation, with the participation of (i) A. James Teague, our general partner's Chief Executive Officer, (ii) W. Randall Fowler, our general partner's President, and (iii) Bryan F. Bulawa, our general partner's Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Mr. Teague is our principal executive officer and Messrs. Fowler and Bulawa represent our principal financial officers. Based on this evaluation, as of the end of the period covered by this quarterly report, Messrs. Teague, Fowler and Bulawa concluded:

- (i) that our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow for timely decisions regarding required disclosures; and
- (ii) that our disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the first quarter of 2017, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Section 302 and 906 Certifications

The required certifications of Messrs. Teague, Fowler and Bulawa under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 are included as exhibits to this quarterly report (see Exhibits 31 and 32 under Part II, Item 6 of this quarterly report).

PART II. OTHER INFORMATION**Item 1. Legal Proceedings.**

As part of our normal business activities, we may be named as defendants in litigation and legal proceedings, including those arising from regulatory and environmental matters. Although we are insured against various risks to the extent we believe it is prudent, there is no assurance that the nature and amount of such insurance will be adequate, in every case, to indemnify us against liabilities arising from future legal proceedings. We will vigorously defend the partnership in litigation matters.

For additional information regarding our litigation matters, see “Litigation” under Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements included under Part I, Item 1 of this quarterly report, which subsection is incorporated by reference into this Part II, Item 1.

Item 1A. Risk Factors.

An investment in our securities involves certain risks. Security holders and potential investors in our securities should carefully consider the risks described under “Risk Factors” set forth in Part I, Item 1A of our 2016 Form 10-K, in addition to other information in such annual report. The risk factors set forth in our 2016 Form 10-K are important factors that could cause our actual results to differ materially from those contained in any written or oral forward-looking statements made by us or on our behalf.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table summarizes our repurchase activity during the three months ended March 31, 2017 in connection with the vesting of restricted and phantom unit awards:

Period	Total Number of Units Purchased	Average Price Paid per Unit	Total Number of Units Purchased as Part of Publicly Announced Plans	Maximum Number of Units That May Yet Be Purchased Under the Plans
Vesting of restricted unit awards:				
February 2017 (1)	225,751	\$ 28.77	--	--
Vesting of phantom unit awards:				
February 2017 (2)	720,393	\$ 28.82	--	--
March 2017 (3)	147	\$ 27.58	--	--

(1) Of the 665,920 restricted common unit awards that vested in February 2017 and converted to common units, 225,751 units were sold back to us by employees to cover related withholding tax requirements.

(2) Of the 2,233,617 phantom unit awards that vested in February 2017 and converted to common units, 720,393 units were sold back to us by employees to cover related withholding tax requirements.

(3) Of the 450 phantom unit awards that vested in March 2017 and converted to common units, 147 units were sold back to us by employees to cover related withholding tax requirements.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Disclosure Under Section 13(r) of the Securities Exchange Act of 1934

Under Section 13(r) of the Securities Exchange Act of 1934, as amended by the Iran Threat Reduction and Syria Human Rights Act of 2012, issuers are required to include certain disclosures in their periodic reports if they or any of their “affiliates” (as defined in Rule 12b-2 thereunder) have knowingly engaged in certain specified activities relating to Iran. Disclosure is required even where the activities are conducted outside the U.S. by non-U.S. affiliates in compliance with applicable law, and even if the activities are not covered or prohibited by U.S. law.

Dr. F. Christian Flach was named a director of our general partner in October 2014 in connection with the acquisition of Oiltanking. Dr. Flach is also Chief Executive Officer of Marquard & Bahls (“M&B”), and a member of the M&B executive board. M&B owns and controls Oiltanking GmbH, which maintains a joint venture interest in Oiltanking Od fjell GmbH, which in turn owns a joint venture interest in the Exir Chemical Terminal (“ECT”) in Iran. This interest results from an investment dating back to 2002. Oiltanking GmbH currently has the contractual right to vote for the appointment of one member of ECT’s three-member board. Oiltanking GmbH provides no goods, services, technology, information or support to ECT and plays no role in the management or day-to-day operations of ECT.

Among other activities, ECT provides transit storage for naphtha originating in Iraq en route to Oman for a customer in the United Arab Emirates. ECT does not import or handle any products originated from Iran that are regulated under U.S., European Union or United Nations sanctions laws. ECT pays routine and standard charges (i) to the Petrochemical Special Economic Zone Organization (“Petzone”) for the use of pipelines and (ii) to Terminals and Tanks Petrochemical Co. (“TTPC”), which operates the berth. Petzone and TTPC are subsidiaries of the National Petrochemical Company, which is owned and controlled by the Government of Iran. As Oiltanking GmbH has no direct involvement in the day-to-day operations of ECT, we have no information regarding ECT’s intent to continue or not continue making the payments described above.

Oiltanking GmbH maintains an internal compliance program to ensure compliance with all applicable sanctions regimes, including sanctions laws maintained by the U.S., European Union and United Nations. Although the existence of the routine payments described above may be reportable under Section 13(r), Oiltanking GmbH has informed us that neither it, nor any of its subsidiaries or affiliates, has engaged in any conduct that would be sanctionable under any of these legal regimes.

Item 6. Exhibits.

of the General Partner

ENTERPRISE PRODUCTS PARTNERS L.P.
COMPUTATION OF RATIO OF EARNINGS TO FIXED CHARGES
(Dollars in millions)

	For the Three Months Ended March 31,	For the Year Ended December 31,				
	2017	2016	2015	2014	2013	2012
Consolidated income	\$ 771.0	\$ 2,553.0	\$ 2,558.4	\$ 2,833.5	\$ 2,607.1	\$ 2,428.0
Add: Provision for (benefit from) taxes	6.0	23.4	(2.5)	23.1	57.5	(17.2)
Less: Equity in earnings from unconsolidated affiliates	(94.8)	(362.0)	(373.6)	(259.5)	(167.3)	(64.3)
Consolidated pre-tax income before equity in earnings from unconsolidated affiliates	682.2	2,214.4	2,182.3	2,597.1	2,497.3	2,346.5
Add: Fixed charges	297.6	1,187.5	1,145.7	1,030.3	964.7	920.3
Amortization of capitalized interest	7.1	27.4	26.2	25.1	22.8	20.3
Distributed income of equity investees	90.5	380.5	462.1	375.1	251.6	116.7
Subtotal	1,077.4	3,809.8	3,816.3	4,027.6	3,736.4	3,403.8
Less: Capitalized interest	(39.6)	(168.2)	(149.1)	(77.9)	(133.0)	(116.8)
Net income attributable to noncontrolling interests	(10.3)	(39.9)	(37.2)	(46.1)	(10.2)	(8.1)
Total earnings	\$ 1,027.5	\$ 3,601.7	\$ 3,630.0	\$ 3,903.6	\$ 3,593.2	\$ 3,278.9
Fixed charges:						
Interest expense	\$ 249.3	\$ 982.6	\$ 961.8	\$ 921.0	\$ 802.5	\$ 771.8
Capitalized interest	39.6	168.2	149.1	77.9	133.0	116.8
Interest portion of rental expense	8.7	36.7	34.8	31.4	29.2	31.7
Total	\$ 297.6	\$ 1,187.5	\$ 1,145.7	\$ 1,030.3	\$ 964.7	\$ 920.3
Ratio of earnings to fixed charges	3.5x	3.0x	3.2x	3.8x	3.7x	3.6x

These computations take into account our consolidated operations and the distributed income from our equity method investees. For purposes of these calculations, "earnings" is the amount resulting from adding and subtracting the following items:

Add the following, as applicable:

- consolidated pre-tax income from continuing operations before adjustment for income or loss from equity investees;
- fixed charges;
- amortization of capitalized interest;
- distributed income of equity investees; and
- our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges.

From the subtotal of the added items, subtract the following, as applicable:

- interest capitalized;
- preference security dividend requirements of consolidated subsidiaries; and
- the noncontrolling interests in pre-tax income of subsidiaries that have not incurred fixed charges.

The term "fixed charges" means the sum of the following: interest expensed and capitalized; amortized premiums, discounts and capitalized expenses related to indebtedness; an estimate of the interest within rental expense; and preference security dividend requirements of consolidated subsidiaries.

SARBANES-OXLEY SECTION 302 CERTIFICATION

I, A. James Teague, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Enterprise Products Partners L.P;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
