Dear TEPPCO Unitholder,

I am compelled to once again intrude upon your time to ask you to vote your proxy, if you have not already done so. As you may have read in our press release, we adjourned the special meeting of unitholders today and will reconvene the meeting at 1:00 PM on December 8, 2006. Under the terms of our partnership agreement, this is the last date that we can reconvene the meeting provided for in our proxy statement dated September 5, 2006. **Please vote your proxy today to have your voice heard in this very important vote.**

If approved, proposals 1 through 5 would reduce our general partner's maximum percentage interest in our distributions and amend our partnership agreement. **ALL OF PROPOSALS 1 THROUGH 5 MUST PASS FOR ANY OF THESE PROPOSALS TO BE EFFECTIVE.**

The graph below illustrates the differences in the cash distributions for various hypothetical annual distribution levels that we would pay our general partner and its owner under our current partnership agreement and under the proposed partnership agreement, including the newly issued units to our general partner, assuming proposals 1 through 5 pass.

**Distributions to the Owner
of our General Partner**

Reduced distributions to our general partner and its owner under the proposed partnership agreement would result in additional cash available for the partnership's business, including investments for growth and increases in distributions to our unitholders. As indicated by the graph, this additional cash can be approximately \$24 million at a \$3.45 per unit annual distribution. The hypothetical distribution levels set forth in the graph above are presented for illustrative purposes only and are not projections. Our actual distribution levels may vary materially from those indicated above. Please refer to the proxy statement dated September 5, 2006 for additional information.

PLEASE VOTE TODAY. IF PROPOSALS 1 THROUGH 5 DO NOT PASS AT THE UPCOMING MEETING ON DECEMBER 8, WE DO NOT KNOW WHEN, IF EVER, THE GENERAL PARTNER MAY BRING THESE PROPOSALS UP FOR A NEW VOTE.

Your vote is important, regardless of the number of units you hold. Thank you for your continued support of TEPPCO. Enclosed is a letter from the Chairman of EPCO, Inc., which controls our general partner, stating his views on the importance of this vote.

Best Regards,

Jerry E. Thompson
President and Chief Executive Officer

Mr. Jerry Thompson
President & Chief Executive Officer
of the General Partner of TEPPCO Partners, L.P.

Dear Jerry:

I just read the TEPPCO press release announcing the adjournment of the special meeting of unitholders. I am hopeful that each of your unitholders will take advantage of the adjournment and vote his or her proxy in favor of these proposals. When I purchased the general partner of TEPPCO in early 2005, my objective was and remains to implement changes that should result in a higher level of consistent long-term growth in value and distributions for TEPPCO's partners. I believe the proposals contained in the proxy statement will position TEPPCO to be more competitive in growing the partnership, creating value and increasing distributions to its limited partners.

More specifically, Proposals 1 through 5, which are associated with the reduction of the incentive distribution rights to the general partner and certain amendments to the partnership agreement, should have the following positive benefits to the limited partners:

- result in no increase in distributions currently being paid to the owner of TEPPCO's general partner and, in fact, reducing the amount of distributions paid to the owner of TEPPCO's general partner as distributions to the limited partners are increased;
- lower the company's cost of capital, thus facilitating the partnership's ability to make more accretive acquisitions and increase distributions to its limited partners;
- increase the limited partner units owned by the general partner and its owner, which will further align the interests of the general partner and its owner with those of the limited partners; and
- update TEPPCO's governance structure so it is more in line with most other publicly traded partnerships, which require only a majority vote of unitholders on most matters.

Jerry, as I am sure you are aware, I have an established track record of generating long-term sustainable returns for the unitholders of Enterprise Products Partners L.P. I see the same exciting opportunities ahead for TEPPCO; however, the first step is approval of each of Proposals 1 through 5 contained in the current proxy statement.

Respectfully,
